Inclusive Mathematics Education David Kollosche, Renato Marcone, Michel Knigge, Miriam Godoy Penteado, Ole Skovsmose, 2019-03-25 The book provides an overview of state of the art research from Brazil and Germany in the field of inclusive mathematics education Originated from a research cooperation between two countries where inclusive education in mathematics has been a major challenge this volume seeks to make recent research findings available to the international community of mathematics teachers and researchers In the book the authors cover a wide variety of special needs that learners of mathematics may have in inclusive settings They present theoretical frameworks and methodological approaches for research and practice

Towards a Psychophysiological Approach in Physical Activity, Exercise, and Sports Pedro Forte, Daniel Leite Portella, Diogo Monteiro, José Eduardo Teixeira, 2023-10-30 In recent years there has been an increase in interest in mental health disorders as a result of mediatic coverage of Olympic athletes mental health struggles and also due to the COVID 19 pandemic lockdowns These phenomena helped to further exacerbate a problem already extensively present in sport and society Therefore applying a psychophysiological approach to physical activity exercise and sports research has become very popular Indeed mental fatigue and mental disorders are not only psychological in origin but also require an explanation from a psychophysiological perspective due to the effective interconnection between the psychological and physiological dimensions Psychological variables can also influence performance and the psychophysiological system has a strong effect on the control of physical capacities Moreover pacing behaviour decision making self regulation and effort perception can also explain the role of the brain in physical activity and exercise management Thus the aim of this Research Topic is to share the impact of a psychophysiological approach in physical activity exercise and sports

Closing the Achievement Gap in America Dr. Jesse J. Hargrove, 2011-07-22 This book reveals how this new generation of learners the Deuce Millennium Generation DMG began their journey from Pre kindergarten at the start of the new millennium in fall 2001 to their middle school years This generation has endured the societal effects of the post 9 11 years for almost ten years yet the author asserts that they will be the best and the brightest He contends that the recent educational training delivered by highly skilled Teacher Training Institutions will contribute to an increase in students knowledge and performance on high stakes measures of assessments over the years The book acknowledges that accreditation is a key factor that plays an important role in the student achievement process This book is a primary source for understanding how the achievement gap in America can be closed The author contends that this scholarly work is the first comprehensive book written on the subject He engages the audiences in issues that are thought provoking and makes the case that the historical social and public education processes have a profound impact on the learning outcomes of students in American schools It is easy to understand why the author puts a name and a face on this new generation of learners The book reveals a clear picture concerning who this generation is and what effects will occur to them if the signs of

the times are not reversed This book should be read and used by all Teacher Training Institutions teachers parents and decision makers who are interested in Closing the Achievement Gap in America The gap issue is a national imperative

Executive Function and Education Mariëtte Huizinga,Dieter Baeyens,Jacob A. Burack,2018-09-21 Executive function is an umbrella term for various cognitive processes that are central to goal directed behavior thoughts and emotions These processes are especially important in novel or demanding situations which require a rapid and flexible adjustment of behavior to the changing demands of the environment The development of executive function relies on the maturation of associated brain regions as well as on stimulation in the child s social contexts especially the home and school Over the past decade the term executive function has become a buzzword in the field of education as both researchers and educators underscore the importance of skills like goal setting planning and organizing in academic success Accordingly in initiating this Research Topic and eBook our goal was to provide a forum for state of the art theoretical and empirical work on this that both facilitates communication among researchers from diverse fields and provides a theoretically sound source of information for educators The contributors to this volume who hail from several different countries in Europe and North America have certainly accomplished this goal in their nuanced and cutting edge depictions of the complex links among various executive function components and educational success
