MT105a Mathematics 1 (half course)

General information

COURSE LEVEL: 4

CREDIT: 15

NOTIONAL STUDY TIME: 150 hours

Summary

This half course develops basic mathematical methods and will emphasise their applications to problems in economics, management and related areas.

Conditions

Exclusions: You may not register for this course in the same year as:

- MT1174 Calculus
- MT1186 Mathematical Methods

Aims and objectives

The objectives specifically include:

- To enable students to acquire skills in the methods of calculus (including multivariate calculus) and linear algebra, as required for their use in economics-based subjects.
- To prepare students for further units in mathematics and/or related disciplines.

Learning outcomes

At the end of the half-course and having completed the essential reading and activities students should be able to:

- used the concepts, terminology, methods and conventions covered in the half course to solve mathematical problems in this subject.
- the ability to solve unseen mathematical problems involving understanding of these concepts and application of these methods
- seen how mathematical techniques can be used to solve problems in economics and related subjects
