Sustainable Digital Communities Anneli Sundqvist, Gerd Berget, Jan Nolin, Kjell Ivar Skjerdingsstad, 2020-03-19 This volume constitutes the proceedings of the 15th International Conference on Sustainable Digital Communities iConference 2020 held in Borås Sweden in March 2020 The 27 full papers and the 48 short papers presented in this volume were carefully reviewed and selected from 178 submissions They cover topics such as sustainable communities social media information behavior information literacy user experience inclusion education public libraries archives and records future of work open data scientometrics AI and machine learning methodological innovation Sharing Higher Education's Promise beyond the Few in Sub-Saharan Africa Peter Darvas, Shang Gao, Yijun Shen, Bilal Bawany, 2017-11-15 Despite a spectacular expansion of the higher education sector in Sub Saharan Africa the supply of tertiary education has generally failed to keep pace with demand and the region continues to lag all other regions in terms of access to tertiary education This is in part a consequence of deeply entrenched patterns of inequitable access to higher education and the perpetuation of what researchers refer to as elite systems To date access to tertiary education in Sub Saharan Africa has unduly benefitted students drawn from the region's wealthiest households and overall enrollment remains disproportionately male and metropolitan These factors stifle the catalytic potential of higher education corroding its potential for driving economic growth and sustaining poverty reduction Instead patterns of access to tertiary education have generally reinforced and

reproduced social inequality instead of eroding its pernicious social and economic effects This report aims to inform an improved understanding of equity in tertiary enrollment in Sub Saharan African countries and to examine the extent to which inequity functions as a bottleneck inhibiting the ability of African universities to effectively drive improvements in overall quality of life and economic competitiveness In our survey of the evidence we also aim to identify which policies most effectively address the challenge of promoting equity of access in SSA tertiary education systems In order to achieve these objectives the report collects generates and analyzes empirical evidence on patterns of equity examines the underlying causes of inequity and evaluates government policies for addressing inequity *Parliamentary Debates* Great Britain.
