Ed Bowker Staff, Staff Bowker, Ed,2004 Africa's Social and Religious Quest Randee Ijatuyi-Morphé,2014-01-30 This well crafted book probes the key dimensions of Africa's existential predicament It constitutes an intellectual response to a gnawing African situation the starting point for grasping Africa's social and religious quest Beyond split explanations of external versus internal factors e g colonization slavery vs leadership cultural values this study accounts more comprehensively for emergent issues shaping this situation The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality polities and destinies vis vis the cosmos and nature Thus African religion and communities each with its own attendant values do not operate by critical engagement with larger issues of society and civilization especially those shaped by the advent of post modernity Rather they operate via adaptation The communal drive for natural and social harmony inevitably produces a preservationist view of culture leaving things as
