Le médicament qui devait sauver l'Afrique Guillaume Lachenal, 2014-10-09 The Lomidine Files Guillaume Lachenal, 2017-10-01 This prize winning study examines the nightmarish effects of the so called wonder drug in preventing sleeping sickness in Africa After the Second World War French colonial health services set out to eradicate sleeping sickness in Africa The newly discovered drug Lomidine also known as Pentamidine promised to protect against infection and mass campaigns of preventive lomidinization were launched across Africa But the drug proved to be both inefficient and dangerous In numerous cases it led to fatality In *The Lomidine Files* Guillaume Lachenal traces the medicine s trajectory from experimental trials during the Second World War to its abandonment in the late 1950s He explores colonial doctors dangerous obsession with an Africa freed from disease and describes the terrible reactions caused by the drug the resulting panic of colonial authorities and the decades long cover up that followed A fascinating material history that touches on the drug s manufacture and distribution as well as the tragedies that followed in its path *The Lomidine Files* resurrects a nearly forgotten scandal Ultimately it illuminates public health not only as a showcase of colonial humanism and a tool of control but also as an arena of mediocrity powerlessness and stupidity Winner of the George Rosen Prize by the American Association for the History of Medicine **Pasteur's Empire** Aro Velmet, 2020 Why did microbe hunters at the Pasteur Institute become the most important health experts in the French empire in the early twentieth century Pasteur s Empire illustrates how French microbiologists transformed life in the colonies in the name of humanitarian public health which often had grave consequences for those living under French rule **Médicaliser l'Afrique** Hines Mabika Ognandzi, 2017-07-01 Jusqu la fin des ann es 1880 la pratique de la m decine occidentale au Gabon a surtout lieu sur mer D s les ann es 1890 on assiste un glissement de la m decine de la mer vers la terre ferme Ainsi pourquoi et comment passe t on d un navire h pital sur mer la case de sant terre de la case de sant aux ambulances h pitaux puis aux centres hospitaliers universitaires Cet ouvrage reconstitue ce processus de m dicalisation Health Innovation and Social Justice in Brazil Maurice Cassier, Marilena Correa, 2018-07-10 This book examines the construction of an innovation system in Brazil s health industries over the past twenty years The authors argue that the system has remained active despite the crisis that began in 2014 However while this crisis has led to cuts in public spending on research and health it has simultaneously tended to stimulate local production and invention aimed at reducing deficits in the trade in medicines and medical technologies The contributors highlight a model combining the acquisition of new technologies with social justice and the right to health and introduce new concepts of the nationalization of technologies innovation through copying and civil society regulation of industrial property and of the medicinal drug market *The Colonial Politics of Global Health* Jessica Lynne Pearson, 2018-09-10 Jessica Lynne Pearson explores the collision between imperial and international visions of health and development in French Africa as postwar decolonization movements gained strength The consequences of putting politics above public health continue to play out in

constraints placed on international health organizations half a century later **A Nervous State** Nancy Rose Hunt,2015-12-30 In *A Nervous State* Nancy Rose Hunt considers the afterlives of violence and harm in King Leopold's Congo Free State Discarding catastrophe as narrative form she instead brings alive a history of colonial nervousness This mood suffused medical investigations security operations and vernacular healing movements With a heuristic of two colonial states one nervous one biopolitical the analysis alternates between medical research into birthrates gonorrhea and childlessness and the securitization of subaltern therapeutic insurgencies By the time of Belgian Congo's famed postwar developmentalist schemes a shining infertility clinic stood near a bleak penal colony both sited where a notorious Leopoldian rubber company once enabled rape and mutilation Hunt's history bursts with layers of perceptibility and song conveying everyday surfaces and daydreams of subalterns and colonials alike Congolese endured and evaded forced labor and medical and security screening Quick witted they stirred unease through healing wonder memory and dance This capacious medical history sheds light on Congolese sexual and musical economies on practices of distraction urbanity and hedonism Drawing on theoretical concepts from Georges Canguilhem Georges Balandier and Gaston Bachelard Hunt provides a bold new framework for teasing out the complexities of colonial history Le médecin qui voulut être roi. Sur les traces d'une utopie coloniale Guillaume Lachenal,2017-02-09T00:00:00+01:00 Un médecin gouvernait seul pendant la Seconde Guerre mondiale une région entière du Cameroun Il tentait d'y réaliser une utopie où la médecine guiderait toute la politique et où la politique deviendrait thérapeutique sociale L'histoire du docteur David ressemble un peu exactement à celle d'un monde rêvé inventé par les médecins Elle rappelle que les colonies furent pour les hauts de la santé publique des espaces d'exception affranchis des contraintes de la politique ordinaire propices aux expériences grandeur nature Celles de cet officier des Troupes coloniales furent totales Les autorités françaises les présentaient comme des succès Les archives et les témoignages en livrent une image plus troublante Guillaume Lachenal retrace ici le destin d'une utopie en entrecroisant l'itinéraire de son maître d'œuvre et le récit captivant d'une enquête de terrain qui l'a conduit de l'Afrique aux îles du Pacifique Dans les lieux et les paysages marqués par les aventures impériales du docteur David dans la végétation les objets les chansons les mémoires ou les ruines il découvre que cette histoire se conjugue au présent C'est une histoire toujours vive faite de promesses impossibles de violence de rêves de grandeur de désirs de succès et de rendez-vous manqués où l'attente du futur s'abîme dans la comédie tragique du pouvoir Guillaume Lachenal est maître de conférences en histoire des sciences à l'Université Paris Diderot Il a notamment publié *Le médicament qui devait sauver l'Afrique* Un scandale pharmaceutique aux colonies *La Découverte* 2014 *Understanding Drugs Markets* Carine Baxerres,Maurice Cassier,2021-07-27 Drawing on anthropology historical sociology and social epidemiology this multidisciplinary book investigates how pharmaceuticals are produced distributed prescribed and consumed and regulated in order to construct a comprehensive understanding of the issues that drive medicine pharmaceutical markets in the Global South today Based on primary research conducted in Benin and Ghana and additional data collected in Cambodia and the
