Army Transportation Journal ,1948 **Daily Report** ,1994 **Toward the National Security State** Brian Waddell,2008-03-30 American involvement in World War II greatly transformed U S civil military relations by propelling the U S military into a prominent position within the national government The war established new linkages and a new unity between key civilian and military personnel And these new civil military relations became institutionalized with the postwar creation of the national security state Waddell explores these new developments and examines how they affected the very nature of American governmental power War is considered the most significant influence on building and transforming government institutions And yet scholars interested in American political development tend to ignore World War II while focusing on the Great Depression and Roosevelt s New Deal In turn scholars who focus on the war tend to focus on the diplomacy strategies battles and personalities that dominated the war itself Rarely is the war considered from the perspective of how it changed the fundamental nature of American government as it led to the national security state the military industrial complex and the militarization of foreign policy This book places these dramatic shifts in the context of the changing civil military relations of World War II It examines these relations in terms of the three central areas of modern warfare production strategy and manpower Chapters focus on the military corporate relations involved in mobilizing the

arsenal of democracy top level command relations between President Franklin D Roosevelt and his military commanders and the civil military tensions and relations involved in mobilizing a mass citizen army A final chapter analyzes what came of these changes as the U S institutionalized a striking new civil military unity in and through the postwar national security state
