Modern World History:

Modern World History Mark Tauger, Angela Feres, 2010 **Mastering Modern World History** Norman Lowe, John Traynor, 2022-06-30 The sixth edition of this bestselling book takes students on a journey through the 20th century and provides a clear overview of the key events which have shaped modern world history Unrivalled in its broad coverage it Surveys international relations and war from 1900 to the present day Examines the rise and fall of fascism and communism around the globe Explores the international affairs of the major superpowers the USA Russia USSR and China Assesses the experience of decolonization in India Africa and Latin America Unpicks global issues including economic crises and population increase Chapters feature maps diagrams and end of chapter questions to support and reinforce understanding This new edition has been updated to take account of new scholarship and provide a more global approach to key chapters in modern world history Key changes include New material on the Second World War beginning with the outbreak of war between China and Japan and touches upon Italy's campaigns in East and North Africa and Civil Wars taking place in China Spain and the Ukraine Coverage of new historical interpretations of the events that led to the First World War New chapters on the history of the United States of America A new chapter on Tsar Nicholas II and the Russian Revolutions of 1917 Mastering Modern World History is the go to textbook for secondary school students and undergraduates studying modern world history and international relations and an ideal companion for anyone with an interest in how the world got into its present state *Modern World History* Dan Allosso, Tom Williford, 2021 *The Origins of the Modern World* Robert B. Marks, 2024-01-02 This clearly written and engrossing book presents a global narrative of the origins of the modern world from 1400 to the present Unlike most studies which assume that the rise of the West is the story of the coming of the modern world this history drawing upon new scholarship on Asia Africa and the New World and upon the maturing field of environmental history constructs a story in which those parts of the world play major roles including their impacts on the environment Robert B Marks defines the modern world as one marked by industry the nation state interstate warfare a large and growing gap between the wealthiest and poorest parts of the world increasing inequality within the wealthiest industrialized countries and an escape from the environmental constraints of the biological old regime He explains its origins by emphasizing contingencies such as the conquest of the New World the broad comparability of the most advanced regions in China India and Europe the reasons why England was able to escape from common ecological constraints facing all of those regions by the end of the eighteenth century a conjuncture of human and natural forces that solidified a gap between the industrialized and non industrialized parts of the world the mounting environmental crisis that defines the modern world and the ways in which the forces of globalization stress the economic and political underpinnings of the modern world Now in a new edition that brings the saga of the modern world to the present in an environmental context the book considers how and why the United States emerged as a world power in the twentieth century and became the sole superpower by the

twenty first century and why the changed relationship of humans to the environmental likely will be the hallmark of the modern era the Anthropocene Once again arguing that the US rise to global hegemon was contingent not inevitable Marks also points to the resurgence of Asia and the vastly changed relationship of humans to the environment that may in the long run overshadow any political and economic milestones of the past hundred years *The Origins of the Modern World* Robert B. Marks, 2006-07-27 This clearly written and engrossing book presents a global narrative of the origins of the modern world from 1400 to the present Unlike most studies which assume that the rise of the West is the story of the coming of the modern world this history drawing upon new scholarship on Asia Africa and the New World constructs a story in which those parts of the world play major roles Robert B Marks defines the modern world as one marked by industry the nation state interstate warfare a large and growing gap between the wealthiest and poorest parts of the world and an escape from the biological old regime He explains its origins by emphasizing contingencies such as the conquest of the New World the broad comparability of the most advanced regions in China India and Europe the reasons why England was able to escape from common ecological constraints facing all of those regions by the 18th century and a conjuncture of human and natural forces that solidified a gap between the industrialized and non industrialized parts of the world Now in a new edition that brings the saga of the modern world to the present the book considers how and why the United States emerged as a world power in the twentieth century and became the sole superpower by the twenty first century Once again arguing that the rise of the United States to global hegemon was contingent not inevitable Marks also points to the resurgence of Asia and the vastly changed relationship of humans to the environment that may in the long run overshadow any political and economic milestones of the past hundred years Remaking the Modern World 1900 - 2015 C. A. Bayly, 2018-10-22 The sequel and companion volume to C A Bayly's ground breaking *The Birth of the Modern World 1780 1914* this wide ranging and sophisticated study explores global history since the First World War offering a coherent comparative overview of developments in politics economics and society at large Written by one of the leading historians of his generation an early intellectual leader in the study of World History Weaves a clear narrative history that explores the themes of politics economics social cultural and intellectual life throughout the long twentieth century Identifies the themes of state capital and communication as key drivers of change on a global scale in the last century and explores the impact of those ideas Interrogates whether warfare was really the pre eminent driving force of twentieth century history and what other ideas shaped the course of history in this period Explores the causes behind the resurgence of local conflict rather than global scale conflict in the years since the turn of the millennium Delves into the narrative of inequality a story that has shaped and been shaped by the events of the last hundred years Part of *The Blackwell History of the World Series* The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole

during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production

Modern World History Jackson J. Spielvogel,1998 *California World History : The Modern World* Elisabeth Gaynor Ellis,Anthony Esler,2019 *The Birth of the Modern World, 1780-1914* C. A. Bayly,2003-12-02 This thematic history of the world from 1780 to the onset of the First World War reveals that the world was far more globalised at this time than is commonly thought Explores previously neglected sets of connections in world history Reveals that the world was far more globalised even at the beginning of this period than is commonly thought Sketches the ripple effects of world crises such as the European revolutions and the American Civil War Shows how events in Asia Africa and South America impacted on the world as a whole Considers the great themes of the nineteenth century world including the rise of the modern state industrialisation and liberalism Challenges and complements the regional and national approaches which have traditionally dominated history teaching and writing
