Sherlock Holmes Was Wrong Pierre Bayard, 2010-09-01 In his brilliant reinvestigation of the classic case of The Hound of the Baskervilles Pierre Bayard uses the last thoughts of the murder victim as his key to unravel the mystery leading the reader to the astonishing conclusion that Holmes and in fact Arthur Conan Doyle got things all wrong Part intellectual entertainment part love letter to crime novels and part crime novel in itself Sherlock Holmes Was Wrong turns one of our most beloved stories delightfully on its head **Agatha Christie and New Directions in Reading Detective Fiction**

Alistair Rolls, 2022-06-16 This book brings a new lens to the work of Agatha Christie through a series of close readings which challenge the official solutions by Hercule Poirot and Miss Marple This book's approach interweaves two core ideas first it explores the importance of French critic Pierre Bayard's self-styled detective criticism second it takes detective criticism in a new direction by refocusing on the beginnings of Agatha Christie's novels In this way the book counters the end orientation that has traditionally dominated the reading experience of and critical response to detective fiction by exploring the potential of the beginning to host other interpretations and stories Offering a new way of reading detective fiction this book is a mixture of narratology and detective criticism and deploys it in the form of radical new readings of a number of Christie's most famous works This illuminating text will interest students and scholars of crime and detective fiction literary studies and comparative literature **The Cambridge Companion to Sherlock Holmes** Janice M. Allan, Christopher

The Monstrosity of Christ Slavoj Žižek, John Milbank, 2011-02-25 A militant Marxist atheist and a Radical Orthodox Christian theologian square off on everything from the meaning of theology and Christ to the war machine of corporate mafia What matters is not so much that Žižek is endorsing a demythologized disenchanted Christianity without transcendence as that he is offering in the end despite what he sometimes claims a heterodox version of Christian belief John Milbank To put it even more bluntly my claim is that it is Milbank who is effectively guilty of heterodoxy ultimately of a regression to paganism in my atheism I am more Christian than Milbank Slavoj Žižek In this corner philosopher Slavoj Žižek a militant atheist who represents the critical materialist stance against religion's illusions in the other corner Radical Orthodox theologian John Milbank an influential and provocative thinker who argues that theology is the only foundation upon which knowledge politics and ethics can stand In *The Monstrosity of Christ* Žižek and Milbank go head to head for three rounds employing an impressive arsenal of moves to advance their positions and press their respective advantages By the closing bell they have not only proven themselves worthy adversaries they have shown that faith and reason are not simply and intractably opposed Žižek has long been interested in the emancipatory potential offered by Christian theology And Milbank seeing global capitalism as the new century's greatest ethical challenge has pushed his own ontology in more political and materialist directions Their debate in *The Monstrosity of Christ* concerns the future of religion secularity and political hope in light of a monstrous event God becoming human For the first time since Žižek's turn toward theology we have a true debate between an atheist and a theologian about the very meaning of theology Christ the Church the Holy Ghost Universality and the foundations of logic The result goes far beyond the popularized atheist theist point counterpoint of recent books by Christopher Hitchens Richard Dawkins and others Žižek begins and Milbank answers countering dialectics with paradox The debate centers on the nature of and relation between paradox and parallax between analogy and dialectics between transcendent glory and liberation Slavoj Žižek is a philosopher and cultural critic He has published over thirty books including *Looking Awry* *The Puppet and the Dwarf* and *The Parallax View* these three published by the MIT Press John Milbank is an influential Christian theologian and the author of *Theology and Social Theory Beyond Secular Reason* and other books Creston Davis who conceived of this encounter studied under both Žižek and Milbank

French Fiction Today Warren Motte, 2017-06-23 *French Fiction Today* focuses on the French novel in the twenty-first century examining a series of works that are exemplary of broader currents in the genre Each of these texts wagers insistently upon our willingness to speculate about literature and its uses in an age when the value of literature is no longer taken as axiomatic Each of these texts may be thought of as a critical novel a form that calls upon us to engage with it in a critical manner promising that meaning will arise in the articulation of writing and reading Each of these authors participates in a debate about what the novel is as a cultural form in our present and about what it may become in a future that begins

Cryptic Subtexts in Literature and Film Steven F Walker,2018-07-17 One of the primary objectives of comparative literature is the study of the relationship of texts also known as intertextuality which is a means of contextualizing and analyzing the way literature grows and flourishes through inspiration and imitation direct or indirect When the inspiration and imitation is direct and obvious the study of this rapport falls into the more restricted category of hypertextuality What the author has labeled a cryptic subtext however is an extreme case of hypertextuality It involves a series of allusions to another text that have been deliberately inserted by the author into the primary text as potential points of reference This book takes a deep dive into a broad array of literature and film to explore these allusions and the hidden messages therein
