Misadventures In Childrearing English Edition:

Act Natural Jennifer Traig, 2019-01-08 From a distinctive inimitable voice a wickedly funny and fascinating romp through the strange and often contradictory history of Western parenting Why do we read our kids fairy tales about homicidal stepparents How did helicopter parenting develop if it used to be perfectly socially acceptable to abandon your children Why do we encourage our babies to crawl if crawling won't help them learn to walk These are just some of the questions that came to Jennifer Traig when exhausted frazzled and at sea after the birth of her two children she began to interrogate the traditional parenting advice she'd been conditioned to accept at face value The result is **Act Natural** hilarious and deft dissection of the history of Western parenting written with the signature biting wit and deep insights Traig has become known for Moving from ancient Rome to Puritan New England to the Dr Spock craze of mid century America Traig cheerfully explores historic and present day parenting techniques ranging from the misguided to the nonsensical to the truly horrifying Be it childbirth breastfeeding or the ways in which we teach children how to sleep walk eat and talk she leaves no stone unturned in her quest for answers Have our techniques actually evolved into something better Or are we still just scrambling in the dark

Misadventures in Childrearing Barry A. Clay, 2015-07-03 Do you sometimes wonder if you really cut out to be a parent Do you read parenting books and try to apply what you learn from them but it doesn't seem to work on your children Do you wonder if you're losing control or perhaps your mind If so this is the book for you You're sure to feel better reading these absolutely true stories with only a teensy weensy bit of exaggeration of the Clay family And look Their children turned out alright Yours will too With laugh out loud humor Barry Clay edited by his wife Joanne and children Lauren Jared Marilla and Nolan brings a humorous and sometimes chaotic slice of reality that is sure to make things look better Or at least funnier
