1. That solitude is coming to an end. People don't know how to be by themselves and just reflect on who you are. I think people are having a harder time to be alone because they are always connected to others.
2. When people take the time to connect to a higher being they are refreshing who they are as a person and "refreshing that norm". Because people are using social media as a way to not have a moment to reflect on who they are. They are using it as a type of distracter. They turn the internet into their own personal world instead of focusing on the one they currently live in.
3. I think it can be, but at the same time I don't agree. I think some people want to be known and their goal is to get a lot of followers, but at the same time I don't think everyone cares about it. No. I think before social media people still had a want to be known and liked and to have a physical reminder they can look at to say oh I have a lot of friends or oh people do like me.
4. I think so. I think everyone needs some time to just be calm and recharge. As humans we are so used to always doing something it's hard to imagine oneself not doing something. I think idle means still being mentally present, but physically relaxed.
5. "answer on moodle"
