Amanda Hiorth Caroline Lenette Leslie Ann Locke Duhita Mahatmya Jody L McBrien Rory Mc Daid Helen Murphy Tara Ross Jan Stewart and Elizabeth P Tonogbanua Compassionate Migration and Regional Policy in the Americas Steven W. Bender, William F. Arrocha, 2017-04-20 This book explores the contested notion of compassionate migration in its discourse and practice In the context of today s migration patterns within the Americas compassionate migration can play a fundamental role in responding to the hardships that many migrants suffer before during and after their journeys This volume explores the boundaries of compassion from legal political philosophical and interdisciplinary perspectives and supplies examples where state and non state actors engage in practices of compassion and humanity through formal and informal regimes Despite the lack of a concise and precise definition of the concept and practice of compassionate migration all authors in this volume agree on the pressing need for more humane and compassionate treatment for those leaving their home country behind in search of a better life Bayanihan and Belonging Alison R. Marshall, 2018-01-01 Drawing on archival and ethnographic research in Canada and the Philippines from 1880 to 2017 Bayanihan and Belonging aims to understand the role of religion within present day Filipino Canadian communities **Science Education in Canada** Christine D. Tippet, Todd M. Milford, 2019-07-01 This book offers a meso level description of demographics science education and science teacher education Representing all 13 Canadian jurisdictions the book provides local insights that serve as the basis for exploring the Canadian system as a whole and function as a common starting point from which to identify causal relationships that may be associated with Canada s successes The book highlights commonalities consistencies and distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction specific chapters Although the analysis indicates a network of policy and practice issues warranting further consideration the diverse nature of Canadian science education makes simple identification of causal relationships elusive Canada has a reputation for strong science achievement However there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education This book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing issues for Canadian science education New Faces in the Crowd Economic Council of Canada, 1991 Examines trends particularly since 1972 and makes projections to the year 2015 and beyond The Routledge Handbook of Comparative Rural Policy Matteo Vittuari, John Devlin, Marco Pagani, Thomas G. Johnson, 2019-10-16 This volume represents the result of almost two decades of trans Atlantic collaborative development of a policy research paradigm the International Comparative Rural Policy Studies program Over this period dozens of scientists from different disciplines but with a common interest in rural issues and policy have collaboratively studied the policies in North America Europe and other parts of the world A core element of the book is the idea and practice of comparative research and analysis what can be learned from comparisons how and why policies vary in different contexts and what lessons might or might not be transferable across borders It provides skills for

the use of comparative methods as important tools to analyze the functioning of strategies and specific policy interventions in different contexts and a holistic approach for the management of resources in rural regions It promotes innovation as a tool to valorize endogenous resources and empower local communities and offers case studies of rural policy in specific contexts The book largely adopts a territorial approach to rural policy This means the book is more interested in rural regions their people and economies and in the policies that affect them than in rural sectors and sectoral policies per se The audience of the book is by definition international and includes students attending courses in agricultural and rural policy rural and regional studies and natural resource management lecturers seeking course material and case studies to present to their students in any of the courses listed above professionals working in the field of rural policy policy makers and civil servants at different levels seeking tools to better understand rural policy both at the local and global scale and to better recognize and comprehend how to transfer best practices

International Education as Public Policy in Canada Merli Tamtik, Roopa Desai Trilokekar, Glen A. Jones, 2020-10-07 In the early twenty first century international education emerged as an almost ubiquitous concept within discussions of educational curriculum the objectives of schools universities and colleges and government policies for K 12 and higher education Although far from a new phenomenon many jurisdictions now view international education as a highly competitive global industry This book provides a comprehensive analysis of international education policy in Canada tracing the complex history of when how and why it emerged as a policy area of strategic importance Illuminating a uniquely Canadian perspective influenced by regional interests and federal provincial tensions *International Education as Public Policy in Canada* addresses challenging questions Why was Canada a latecomer in addressing this policy issue What is the relationship between international education and Canadian immigration policy How did international education develop as a major Canadian industry The resulting essays from leading scholars contribute not only to the growing Canadian literature on international education policy but also to a critical global conversation Contemplating where the Canadian story of international education is headed *International Education as Public Policy in Canada* calls for a broader debate on ethical practices in internationalization focusing on inclusion equity compassion and reciprocity
