Myanmar Love Story Manual:

The Pearson Concise General Knowledge Manual 2010 (New Edition) Thorpe, 2009 **The Graphic Lives of Fathers** Mihaela Precup, 2020-02-21 This book explores the representation of fatherhood in contemporary North American autobiographical comics that depict paternal conduct from the post war period up to the present It offers equal space to autobiographical comics penned by daughters who represent their fathers complicated and often disappointing behavior and to works by male cartoonists who depict and usually celebrate their own experiences as fathers This book asks questions about how the desire to forgive or be forgiven can compromise the authors ethics or dictate style considers the ownership of life stories whose subjects cannot or do not agree to be represented and investigates the pervasive and complicated effects of dominant masculinities By close reading these cartoonists complex strategies of self representation this volume also places photography and archival work alongside the problematic legacy of self deprecation carried on from underground comics and shows how the vocabulary of graphic narration can work with other media and at the intersection of various genres and modes to produce a valuable scrutiny of contemporary norms of fatherhood **The Salvation Army Year Book** Theodore H. Kitching, 2008 **Forthcoming Books** Rose Arny, 2002 The Birth of Insight Erik Braun, 2013-11-19 Insight meditation which claims to offer practitioners a chance to escape all suffering by perceiving the true nature of reality is one of the most popular forms of meditation today The Theravada Buddhist cultures of South and Southeast Asia often see it as the Buddha s most important gift to humanity In the first book to examine how this practice came to play such a dominant and relatively recent role in Buddhism Erik Braun takes readers to Burma revealing that Burmese Buddhists in the colonial period were pioneers in making insight meditation indispensable to modern Buddhism Braun focuses on the Burmese monk Ledi Sayadaw a pivotal architect of modern insight meditation and explores Ledi s popularization of the study of crucial Buddhist philosophical texts in the early twentieth century By promoting the study of such abstruse texts Braun shows Ledi was able to standardize and simplify meditation methods and make them widely accessible in part to protect Buddhism in Burma after the British takeover in 1885 Braun also addresses the question of what really constitutes the modern in colonial and postcolonial forms of Buddhism arguing that the emergence of this type of meditation was caused by precolonial factors in Burmese culture as well as the disruptive forces of the colonial era Offering a readable narrative of the life and legacy of one of modern Buddhism s most important figures The Birth of Insight provides an original account of the development of mass meditation **Whitaker's Book List** , 1991 Poles Apart Aditya Sondhi, 2024-07-24 Is there a predominant reason why India is not Pakistan Many would likely point to the omnipresence of the military in the polity of the latter While the interventionist attitude of the army in Pakistan easily explains the democratic shortfall in its history the mirror opposite in India is rarely studied or credited Poles Apart is a unique and original investigation of the comparative roles of the military to study their influences on the growth of democracy in the two nations The book highlights the divisive outcomes of military

coups on Pakistan's democratic trajectory while also closely analysing potential scenarios in India when the army could have gone astray but chose to stay apolitical. Disgrace at the hands of China in 1962, the Emergency and Operation Blue Star among others make for fascinating case studies of how the army was treated shabbily but still remained politically disinclined. On the other hand, the overarching presence of Field Marshal Ayub Khan, General Yahya Khan, General Zia ul Haq and General Pervez Musharraf in the Pakistani political space represent a very different set of choices and interventions. A crisp chapter on Bangladesh and its experiments with democracy and martial rule rounds off the deeply researched study.

When It Rains, It Pours Jan Chipchase, Sarah Fathallah, Grace Su Lei Naing, 2019-01-01. *When It Rains It Pours* is the third publication from Proximity Designs, a Yangon-based social business and one of Myanmar's largest providers of agricultural products and services. The book provides a panoramic view of the sesame ecosystem in Myanmar with a deep dive from the perspective of small farmers and offers tangible opportunities to address the challenges they face. Known as the forgotten crop for its tendency to be overshadowed by the more established paddy, sesame is grown in Myanmar's Central Dry Zone by an estimated 500,000 farmers. Myanmar is also one of the top exporters of sesame in the world with even greater export potential but many factors threaten the livelihood of sesame farmers such as climate change, labor shortages and pests and diseases. The publication is the output of eight weeks of intensive research conducted in Myanmar's main sesame growing areas by a team of ten design researchers, seven from Proximity's own team and three from world-renowned design firm Studio D. Radiodurans. Using a design research approach, the team sought to deliver a deep human understanding of the problems sesame farmers face and opportunities to overcome them.
