## **My iPhone 3gs Keeps Saying No Service:**

*The iPhone Book, Third Edition (Covers iPhone 3GS, iPhone 3G, and iPod Touch)* Scott Kelby, Terry White, 2009-09-25 If you're looking for a book that focuses on just the most important, most useful and most fun stuff about your iPhone 3G or 3GS you've found it. There are basically two types of iPhone books out there: 1. The tell me all about it kind, which includes in-depth discussions on everything from wireless network protocols to advanced compression codes. 2. Then there's this book, which instead is a show me how to do it book that skips all the confusing techno jargon and just tells you in plain simple English exactly how to use the iPhone features you want to use most. The iPhone Book is from Scott Kelby, the award-winning author of the smash bestseller *The iPod Book*, who takes that same highly acclaimed casual straight-to-the-point concept and layout and brings it to learning Apple's amazing iPhone. Scott teams up once again with gadget guru and leading iPhone authority Terry White to put together a book that is an awful lot like the iPhone itself: simple to use and fun to learn. The book's layout is brilliant, with each page covering just one single topic so finding the information you need is quick and easy, with a large full-color photo on each page so you can see exactly how it works. The first edition of this book was named Best Computer Book of 2007, and since then Scott and Terry added even more tips and more tricks and made it even easier by focusing on just the most useful and most requested iPhone 3G and 3GS features so you can start really using your iPhone today.
