

### **My Work Experience in the Library**

I can't search for the company but I decided to start my on-the-job training at Library Department in STI College Calamba last November 15, 2012. First of all, I'm very much gratified for the support and understanding of my superiors especially on times when I just committed mistakes. More than any learning though in library area, I learned to be with others, to work with one student assistants because S. A. teaches me to do in library. My training supervisor, Mrs. Emabel C.

Villa who could write it on the paper so that she shows me about work and something. I learn to accept it and be apologetic for my mistakes. But I tried to learn about something and no action mistake. She has observed my activities and practices every day. I was assigned to the Library Department. I was able to work as well. Next day, shyness and nervousness are always when it's my first time. For many reason, student do not know me in the Library because of my deafness.

I do not have any actual experience. But student approached me to be understood. I feel happy and comfortable in the Library Department. And even I'm just a trainee. It doesn't make me feel uncomfortable as I worked. I later learned to work with longer patient. Most of the time, students approach me about library cards, borrowing books and the use of PC in the library. I'm very kind to help them every day. They understand me. They wanted to say thanks to me every day.

I communicated with them. I have a fun working with the other student assistants. And myself, I'm willing to work especially in arranging the book shelves, check the number of book, check the library card, check the list of price and keep the money to give it to Mrs. Villa. Until January 24, I finished my 200 hours. I desired to be successful in life. I always trust in God because he follows me everywhere. I'm very thankful to him. I took a rest for a longtime.

William James, Essays in Radical Empiricism H. G. Callaway, 2022-06-06 H G Callaway's critical edition of William James's *Essays in Radical Empiricism* evaluates this classic work of American philosophy and the pragmatist tradition partly on the basis of the functional psychology of James's magnum opus *The Principles of Psychology* The edition also brings in later Darwinian functionalist American psychology which James did much to inspire and contemporary developments in functional cognitive psychology and neuroscience James's own text has been annotated throughout to render his references and theoretical concerns explicit and to briefly indicate points of criticism The edition features an expanded bibliography that includes both historical and contemporary sources as well as a new comprehensive index The chief arguments of the edition center on criticism of James's claims for radical empiricism his doctrine of pure experience and the doubtful role as evidence James attributed to stand alone introspection and Jamesian retrospection Enlisting results from the logic of relations contemporary empiricism historical and contemporary developments in cognitive psychology and experimental neuroscience Callaway argues for the importance of James on functional relations to be interpreted in the manner of the scientific naturalism prominent in *The Principles of Psychology* Too often James's late philosophical views have overshadowed the accomplishments of his earlier work in psychology Overall this new edition indicates the scientific virtues of functionalism in cognitive psychology and shows the relevance of James's functional psychology to contemporary cognitive theory **Essays**

**in Radical Empiricism** Dr. William James, 2013-03-21 William James believed that events could not be catalogued simply as a series of facts but had to be considered through the lens of experience. Thus each person affects and modifies their own reality based on their own unique experiences and points of view. Ultimately you can quantify facts but only if you understand how the person looking at these facts will affect and change them. **Essays in Radical Empiricism** William
