Negotiating Identities in Contemporary Africa Toyin Falola, Emmanuel M. Mbah, 2023-08-29 *Negotiating Identities in Contemporary Africa* Gender Religion and Ethno cultural Identities explores the changing dynamics of identities in Africa with a focus on gender ethno cultural and religious identity Toyin Falola and Emmanuel M Mbah argue that because identity defines who we are as individuals or groups studies on African identities must focus on understanding the changing dynamics in the socio economic and political spheres in the continent These chapters cover subjects such as women s career identity gender roles and knowledge childlessness ethnocentrism and democracy cultural identity through theater Black identity in the diaspora and diasporic consciousness Using existing scholarship the chapters in this edited volume challenge our understanding of what identity entails and provide new discussions on the hitherto politicized historiography of some identities in Africa

Routledge Handbook on the Green New Deal Kyla Tienhaara, Joanna Robinson, 2022-08-26 In recent years the Green New Deal has moved from relative obscurity to front and centre of policy discussions and public debates about how to respond to the climate crisis It has been credited with radically changing the nature of the conversation on climate change and with re energizing the environmental movement at a critical time All Green New Deal proposals share an emphasis on the need for governments rather than markets to lead the energy transition However they differ in other respects This Handbook analyses the fundamentals underlying all Green New Deals as well as exploring national and regional variations It is divided into three parts The first part examines the political economy of the Green New Deal focussing not just on how proposals will be costed but also on opportunities for a fundamental transformation of both national economies and the global economic system The second part explores issues of justice which

are central to many Green New Deal proposals including Indigenous rights racial and gender equity and justice for the Global South In the third part authors detail case studies of Green New Deal proposals and plans at the local national and regional level This book will be an invaluable research and reference volume for students and scholars in economics politics sociology geography and environmental studies It should also be of interest to those actively involved in climate and environmental policymaking

Unsettled Families Sophia Balakian Ph.D.,2025-02-18 Against the backdrop of the global refugee crisis Unsettled Families investigates the parameters that Global North governments and international humanitarian organizations use to classify most displaced families more than 99% globally as ineligible for resettlement and often as fraudulent But fraud as a category is not as self evident as it may first appear Nor is the family Based on long term fieldwork between Nairobi Kenya and Columbus Ohio Sophia Balakian tells stories of Somali and Congolese refugees navigating a complicated global assemblage of humanitarian organizations immigration bureaucracies and national security agencies as they seek permanent new homes Viewing the concepts of fraud and family from different vantage points in this context Balakian shows how the categories begin to blur out of focus sometimes to evaporate altogether what seems to be contained within them scatter outside their received boundaries Practices that resettlement organizations deem fraudulent are often understood by people living as refugees to be moral actions in an unequal world Such practices allow them to fulfill obligations to kin kin defined expansively in ways that at times exceed the boundaries of normative US frameworks Bringing questions of kinship into current discussions on humanitarianism Balakian locates the family as a crucial category in processes of producing policing and contesting the boundaries of nation states in the 21st century

African Cities, 2014 United Nations Publications,2015-09-10 The African continent is currently in the midst of simultaneously unfolding and highly significant demographic economic technological environmental urban and socio political transitions Africa s economic performance is promising with booming cities supporting growing middle classes and creating sizable consumer markets Despite significant overall growth the continent continues to suffer under very rapid urban growth accompanied by massive urban poverty and many other social problems These seem to indicate that the development

trajectories followed by African nations since post independence may not be able to deliver on the aspirations of broad based human development and prosperity for all This report therefore argues for a bold re imagining of prevailing models in order to steer the ongoing transitions towards greater sustainability based on a thorough review of all available options That is especially the case since the already daunting urban challenges in Africa are now being exacerbated by the new vulnerabilities and threats associated with climate and environmental change
