This collection of scholarly essays considers recent and contemporary examples of zombies in fiction literature popular culture and politics from around the world and makes the case that because of the evolution of the undead the zombie remains an important allegorical feature of horror fiction satire and ideological perspectives.

Becoming Kavita Mudan Finn, EJ Nielsen, 2019-08-06. The NBC series Hannibal has garnered both critical and fan acclaim for its cinematic qualities its complex characters and its innovative reworking of Thomas Harris's mythology so well known from Jonathan Demme's *Silence of the Lambs* 1991 and its variants. The series concluded late in 2015 after three seasons despite widespread fan support for its continuation. While there is a healthy body of scholarship on Harris's novels and Demme's film adaptation little critical attention has been paid to this newest iteration of the character and narrative. Hannibal builds on the serial killer narratives of popular procedurals while taking them in a drastically different direction. Like critically acclaimed series such as *Breaking Bad* and *The Sopranos* it makes its viewers complicit in the actions of a deeply problematic individual and in the case of Hannibal forces them to confront that complicity through the character of Will Graham. The essays in *Becoming* explore these questions of authorship and audience response as well as the show's themes of horror gore cannibalism queerness and transformation. Contributors also address Hannibal's distinctive visual auditory and narrative style. Concluding with a compelling interview with series writer Nick Antosca this volume will both entertain and educate scholars and fans of Hannibal and its many iterations.
