SOCIETY,2018 Handbook for Authors of Papers in the Journals of the American Chemical Society American Chemical Society,1967 **The Journal of the American Chemical Society** American Chemical Society,2017-11-25 Excerpt from The Journal of the American Chemical Society General Index to the First Twenty Volume

1879 1898 and to the Proceedings 1877 1879 HE earlier volumes of the Journal contained abstracts of papers which had appeared elsewhere So many of the names of the authors of these papers were erroneously printed that we had to verify all such by reference to the original unless it was already well known to us They appear in this index in the correct form with initials of Christian names supplied if possible When it could not be determined whether M Was an initial or the French equivalent of our Mr it was printed In a few cases articles which it is suspected belong to the same author appear under entries slightly different in form the two entries under Guyard and the first and third under Monnet are examples Had Monnet y Cos written more frequently it would have been possible to resolve the doubt which prevented the placing all papers by a person under his name in its latest form according to the established rule In case of variety in ways of print ing certain names the Royal Society s Catalogue has commonly been fol lowed But the few Russian names cited have not been rescued from the confusion produced by transliteration into English from both French and German In the index of authors few liberties have been taken with titles except in spelling uniformly certain words such as benzene on which probably all would now agree In the index of subjects it was thought desirable to se cure somewhat more uniformity of spelling and nomenclature in the titles of abstracts The index has been printed from the original cards which had been pre pared directly from the pages of the Journal and afterwards twice verified Having been arranged alphabetically they were made ready for the printer by cancelling words common to successive entries and by changes in order of words and other slight modifications of expressions In an index so pre pared the compiler sometimes satisfies himself with a sequence and relation of entries not quite so felicitous as if everything had been rewritten but the figures submitted to the printer cannot be erroneous except by becoming illegible In our labor of love for the Society we thought that accuracy of reference to page and volume was that most desired at our hands The fact that the preparation of the index was divided somewhat equally between two compilers has lessened the uniformity of treatment which might have been secured otherwise About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
