## Writing

We will publish and celebrate the All About Books we wrote in May. We will also think about all we learned this year as writers. We will use what we know to practice our writing in a variety of genres and topics. Don't forget to encourage your child to continue writing throughout the summer months!

## Reading

We will be preparing for first grade by continuing to practice our reading strategies in our leveled books. We will continue to build our comprehension skills through independent reading and read alouds. Practicing reading every day is important for developing readers. Continue to make time for reading every night throughout the summer.

## Science and Social Studies

In Science we will continue to observe the garden, especially the growth of the seeds we planted. We will notice and discuss the changes we have seen throughout the year.

In Social Studies we will continue learning about our neighborhood. We will think about all the important parts that make a neighborhood.

## Math

This month we will continue to build our understanding of addition and subtraction to prepare for first grade. We will continue to compose and decompose numbers. We will apply the problem solving skills we gained throughout the year to new problems.

HAPPY  
FATHER'S  
DAY!

*The Promise of Preschool* Elizabeth Rose, 2010-03-17 The past 45 years have seen the emergence of education for young children as a national issue spurred by the initiation of the Head Start program in the 1960s efforts to create a child care system in the 1970s and the campaign to reform K 12 schooling in the 1980s Today the push to make preschool the beginning of public education for all children has gained support in many parts of the country and promises to put early education policy on the national agenda Yet questions still remain about the best ways to shape policy that will fulfill the promise of preschool In *The Promise of Preschool* Elizabeth Rose traces the history of decisions on early education made by presidents from Lyndon Johnson to George W Bush by other lawmakers and by experts advocates activists and others Using this historical context as a lens the book shows how the past shapes today's preschool debate and provides meaningful perspective on the policy questions that need to be addressed as we move forward Should we provide preschool to all children or just to the neediest Should it be run by public schools or incorporate private child care providers How do we most effectively ensure educational quality and success *The Promise of Preschool* is a balanced in depth investigation into these and other important questions and demonstrates how an understanding of the past can stimulate valuable debate about the care and education of young children today

Wong, Robert Rothman, 2009 This series explores the history of schools and schooling in the United States and other countries The series will examine the historical development of schools and educational processes with special emphasis on issues of educational policy curriculum and pedagogy as well as issues relating to race class gender and ethnicity Special emphasis will be placed on the lessons to be learned from the past for contemporary educational reform and policy Although the series will publish books related to education in the broadest societal and cultural context it especially seeks books on the history of specific schools and on the lives of educational leaders and school founders    Life Stories Linda C. Morice, Laurel Puchner, 2013-12-01 *Life Stories Exploring Issues in Educational History Through Biography* consists of 13 essays each of which offers perspective on one of four key questions that have long drawn scholarly attention What should schools teach Who gets to decide How should educators adapt to a changing world to provide opportunity for all students How should educators experiences be interpreted for future audiences The book is written to commemorate the thirtieth anniversary of the International Society for Educational Biography and its journal *Vitae Scholasticae* All of the essays have appeared in the journal and they are set in a variety of educational environments that span 174 years Taken together the essays demonstrate the important contributions that biography can make to educational history *Life Stories* would be of interest to educational biographers and historians for use in their own scholarly work Instructors might also

 Lasser,2018-12-05 Before the Civil War Oberlin Ohio stood in the vanguard of the abolition and black freedom movements  
 The community including co founded Oberlin College strove to end slavery and establish full equality for all Yet in the half  
 century after the Union victory Oberlin s resolute stand for racial justice eroded as race based discrimination pressed down  
 on its African American citizens In *Elusive Utopia* noted historians Gary J Kornblith and Carol Lasser tell the story of how in  
 the nineteenth and early twentieth centuries Oberlin residents black and white understood and acted upon their changing  
 perceptions of race ultimately resulting in the imposition of a color line Founded as a utopian experiment in 1833 Oberlin  
 embraced radical racial egalitarianism in its formative years By the eve of the Civil War when 20 percent of its local  
 population was black the community modeled progressive racial relations that while imperfect shone as strikingly more  
 advanced than in either the American South or North Emancipation and the passage of the Civil War amendments seemed to  
 confirm Oberlin s egalitarian values Yet contrary to the expectations of its idealistic founders Oberlin s residents of color fell  
 increasingly behind their white peers economically in the years after the war Moreover leaders of the white dominated  
 temperance movement conflated class color and respectability resulting in stigmatization of black residents Over time many  
 white Oberlinians came to view black poverty as the result of personal failings practiced residential segregation endorsed  
 racially differentiated education in public schools and excluded people of color from local government By 1920 Oberlin s  
 racial utopian vision had dissipated leaving the community to join the racist mainstream of American society Drawing from  
 newspapers pamphlets organizational records memoirs census materials and tax lists *Elusive Utopia* traces the rise and fall  
 of Oberlin s idealistic vision and commitment to racial equality in a pivotal era in American history      **Building and**
