2001 ,2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication since 1990 The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions *Emotions in Rituals and*

Performances Axel Michaels,Christoph Wulf,2020-11-29 Challenging the idea that rituals are static and emotions irrational the volume explores the manifold qualities of emotions in ritual practices Focusing explicitly on the relationship between emotions and rituals it poses two central questions First how and to what extent do emotions shape rituals Second in what way are emotions ritualized in and beyond rituals Strong emotions are generally considered to be more spontaneous and uncontrolled whereas ritual behaviour is regarded as planned formalized and stereotyped and hence less emotional However as the volume demonstrates rituals often reveal strong emotions among participants are motivated by feelings or are intended to generate them The essays discuss the motivation for rituals the healing function of emotions the creation of new emotions through new media the aspect of mimesis in the generation of feelings individual collective and non human emotions the importance of trance and possession staged emotions and emotions on stage emotions in the context of martyrdom emotions in Indian and Western dance traditions emotions of love sorrow fear aggression and devotion Furthermore aesthetic and sensory dimensions as well as emic concepts of emotions in rituals are underscored as relevant in understanding social practice *Georgis' Parasitology for Veterinarians E-Book* Dwight D.
