The Influence of Jomo Kenyatta and Julius K. Nyerere on Education and Development in Kenya and Tanzania

Heinz Fischer,1980 *Quality Assurance in Higher Education in Eastern and Southern Africa* Peter

Neema-Abooki,2021-08-23 This book examines the critical aspect of quality assurance maintenance of competitive standards in African higher education It explores both the micro and macro levels of continental African higher education regulatory authorities and analyses different institutional regional and national practices for moving towards continental quality assurance approaches Contributed to by scholars across Eastern and Southern Africa the book considers conceptual practical epistemological and policy dimensions of quality and quality assurance especially in relation to higher education in Africa It therefore draws on research and local expertise to open up debate about how to assure and enhance the quality of higher education providing a comprehensive review of eight countries and considers societal challenges It aims to satisfy the need of more thoughtful and critical works on African education as produced by African educators The uniqueness of this book lies in integrating both the theoretical and practical dimensions of quality to devise appropriate strategies for ensuring quality and standards in higher education in continental Africa and beyond This authoritative book advocates for a timely discussion around the provision of good quality higher education and research in African universities and will be of great interest to academics policy makers researchers and post graduate students in the fields of higher education comparative education and African studies *Unyoking African University Knowledge* ,2023-04-12 The discourse of decolonisation though littered with unresolved contestation in the university as an institution of higher learning has often been blamed on the impact of neoliberal globalisation philosophy The volume focuses on unfinished project of decolonisation with an aim on African knowledge and the historical question of canonicity by keeping the emancipative dialogue alive The authors place great scrutiny on the quality of curriculum offered in universities arguing that a sound relevant curriculum original to the continent can save Africa's citizenry from challenges bedevilling socio economic development This book proposes a disruption and potential end to western hegemonic epistemologies that manifest the neoliberal geopolitical terrain in the form of cultural imperialism epistemicide and linguicide through a decolonial approach to the curriculum in African universities It interrogates and challenges the neo colonial entanglement in regional higher education policy processes coupled with the excessive dependence of regional stakeholders on western external actors for higher education policy and envisages a decolonial alternative future for the regionalisation of higher education in Africa To this end the book brings in a more philosophical and practical hermeneutic of knowledge production and dissemination that unyokes post independence African universities from the bondage of erstwhile colonisers *Dictionary of African Biography* Emmanuel Kwaku

Akyeampong,Professor Henry Louis Gates, Jr.,2012-02-02 From the Pharaohs to Fanon Dictionary of African Biography provides a comprehensive overview of the lives of the men and women who shaped Africa's history Unprecedented in scale

DAB covers the whole continent from Tunisia to South Africa from Sierra Leone to Somalia It also encompasses the full scope of history from Queen Hatsheput of Egypt 1490 1468 BC and Hannibal the military commander and strategist of Carthage 243 183 BC to Kwame Nkrumah of Ghana 1909 1972 Miriam Makeba and Nelson Mandela of South Africa 1918 *The Power of Babel* Ali A. Mazrui, Alamin M. Mazrui, Alamin Mazrui, 1998-08-03 Linguists estimate that there are currently nearly 2 000 languages in Africa a staggering figure that is belied by the relatively few national languages While African national politics economics and law are all conducted primarily in the colonial languages the cultural life of the majority of citizens is conducted in a bewildering Babel of local and regional dialects making language itself the center of debates over multiculturalism gender studies and social theory In *The Power of Babel* the noted Africanist scholar Ali Mazrui and linguist Alamin Mazrui explore this vast territory of African language *The Power of Babel* is one of the first comprehensive studies of the complex linguistic constellations of Africa It draws on Ali Mazrui's earlier work in its examination of the triple heritage of African culture in which indigenous Islamic and Western traditions compete for influence In bringing the idea of the triple heritage to language the Mazruis unravel issues of power culture and modernity as they are embedded in African linguistic life The first section of the book takes a global perspective exploring such issues as the Eurocentrism of much linguistic scholarship on Africa part two takes an African perspective on a variety of issues from the linguistically disadvantaged position of women in Africa to the relation of language policy and democratic development the third section presents a set of regional studies centering on the Swahili language's exemplification of the triple heritage *The Power of Babel* unites empirical information with theories of nationalism and pluralism among others to offer the richest contextual account of African languages to date *Africa Quarterly*, 1972 **International Handbook of Urban Policy** H. S. Geyer, 2011 This important Handbook reveals that most urban growth takes place in the less developed world and much of it represents over urbanization that is urbanization in which most migrants cannot effectively compete for employment cannot find adequate shelter and do not have the means to feed themselves properly Yet compared to rural poverty urban poverty is widely regarded as the lesser of the two evils H S Geyer and his contributors highlight the enormous challenges posed by urbanization to decision makers at all levels of government This final volume in a series of three original reference works covers four broad themes including urban growth patterns spatial issues policy issues and urban growth determinants The chapters have been written not only for the advanced student and academics but also with undergraduate students in mind The Handbook will appeal to scholars and researchers interested in international urban development issues *African Nationalism* P210/1 Moses Kamya, 2002 *Journal of African and Asian Studies*, 1973 *Reflections on Leadership in Africa* Haroub Othman, 2000 **AF Press Clips** United States Department of State.
