

Objectives

By the end of this unit the children should:

- Understand that all living things have a life cycle.
- Be able to describe the main stages in a number of familiar life cycles, including humans and other animals and plants.
- Understand that life cycles vary in length, from hours to days to hundreds of years.
- Understand that certain species undergo a complete metamorphosis during their life cycle.

Key Teaching Points

All living things follow a life cycle specific to their species. Some are as short as a few hours or days while others last for hundreds of years. Because it is a cycle, there is no start or end point, but rather a continuous flow that includes fertilisation, birth, growth and reproduction. Some species produce offspring that are very similar to the adult form, such as most mammals, birds and reptiles. Others produce a larval form that undergoes a complete metamorphosis before emerging as an adult form that is capable of reproduction.

Starter Activity (10 minutes)

Play the film **What's that noise?**

(You can pause at 00:18 and ask the children to share their ideas with a partner.)

Organise the children into groups of four or five. Give each group some paper and pencils/pens.

Explain to them that one person in each group is going to describe an image in as much detail as possible (without saying what it is), while the others in the group draw a picture of what they think is being described.

Give one child in each group a butterfly image (unseen by the others). This is provided in the Butterfly and frog images activity sheet.

After 5 minutes of describing the image, ask the groups to compare their drawings to the butterfly image. Ask them to discuss what extra information might have been useful to improve their drawings.

Optional extra

If time allows, repeat the exercise with the frog image, described by a different child. **Note:** The first example should have focused the children's attention on the need for lots of clear description and detail.

Ask the groups to compare their drawings to the frog image.
