Rodale's Nontoxic Back-to-School Shopping Guide Emily Main, Leah Zerbe, Editors of Rodale Books, 2011-08-29

Unfortunately many manufacturers of school related products deserve an F for selling items laced with chemicals that are linked to developmental and learning problems among other ailments Some of these products also take a toll on the health of our planet adding to the mountains of trash and waste that strain our resources and releasing toxic chemicals that pollute air water and soil The good news is that parents public health leaders and advocacy groups have been calling for safer products and marketers are listening So there are more and more options for smart choices that protect your family s health To help you navigate the sometimes confusing array of backpacks book bags lunch boxes art supplies and other educational accessories and separate the truly healthful from the overly hyped the editors of Rodale Books editors have compiled this unique shopping guide to the healthiest safest kid friendliest options on the market today Based on extensive research and interviews and advice from child health experts environmental specialists and concerned parents Rodale s Nontoxic Back to School Shopping Guide covers more than 150 specific products provides dozens of creative ideas for materials and sources and offers important guiding principles for evaluating other items you may find on your own It s the ultimate handbook for equipping your kids to have a safe healthy nontoxic school year Smart Connected World Sarika Jain, San

Murugesan, 2021-09-27 This book provides an overview of the emerging smart connected world and discusses the roles and the usage of underlying semantic computing and Internet of Things IoT technologies The book comprises ten chapters overall grouped in two parts Part I Smart Connected World Overview and Technologies consists of seven chapters and provides a holistic overview of the smart connected world and its supporting tools and technologies Part II Applications and Case Studies consists of three chapters that describe applications and case studies in manufacturing smart cities health and more Each chapter is self contained and can be read independently taken together readers get a bigger picture of the technological and application landscape of the smart connected world This book is of interest for researchers lecturers and practitioners in Semantic Web IoT and related fields It can serve as a reference for instructors and students taking courses in hybrid computing getting abreast of cutting edge and future directions of a connected ecosystem It will also benefit industry professionals like software engineers or data scientists by providing a synergy between Web technologies and applications This book covers the most important topics on the emerging field of the smart connected world The contributions from leading active researchers and practitioners in the field are thought provoking and can help in learning and further research The book is a valuable resource that will benefit academics and industry It will lead to further research and advancement of the field Bharat K Bhargava Professor of Computer Science Purdue University United States *Plunkett's Retail Industry Almanac: Retail Industry Market Research, Statistics, Trends & Leading Companies* Jack W.
