Job Interview Questions Math Coach:

Mathematics Coaching Handbook Pia Hansen, 2013-07-23 This book serves as a reference to help prepare and support effective math content coaches. It provides insight into the leadership skills necessary to mentor other teachers, establish collaborative teacher teams, influence school culture positively, and improve student achievement. *The Mathematics Coaching Handbook* Pia Hansen, 2015-10-30 Learn how you can work more effectively with teachers in your role as a math coach or department chair. Coaching can be a rewarding experience both personally and professionally, but it also requires taking risks, being up to date on the latest research, implementing best practices, and managing relationships. In this practical book for grades K-8, you will gain helpful insight on being an effective mentor, coach, and colleague to your math teachers. You will find out how to develop relationships with your teachers through one-to-one collaboration, establish teacher teams to meet goals effectively, improve student achievement by implementing best practices for math education, overcome common challenges faced by coaches and teacher leaders, and more. This updated second edition contains new information on empowering teachers to tackle the key shifts of the Common Core. It also offers updated advice on ways to conduct professional development with teachers such as through online chats and book studies. The book's appendices offer additional resources for math coaches, including rubrics, conference guides, and tools for classroom observations. Everything You Need for Mathematics Coaching Maggie B. McGatha, Jennifer M. Bay-Williams, Beth McCord Kobett, Jonathan A. Wray, 2018-04-02 Math coaches wear many hats. You think on your feet and have to invent, react, and respond often without time to prepare in a myriad of professional contexts. What's your go-to resource for support? Plan, focus, and lead. Your toolkit for inspiring math teachers. Meet *Everything You Need For Mathematics Coaching: Tools, Plans, and a Process That Works for Any Instructional Leader*. This one-stop comprehensive toolkit for improving mathematics instruction and learning is designed for busy math coaches and teacher leaders who often have to rely on their own competencies. Using the Leading for Mathematical Proficiency Framework, the authors position student outcomes as the focus of all professional work and connect the Eight Mathematical Practices for students with NCTM's Eight Effective Teaching Practices to help you guide teachers toward growing mathematics proficiency in their classrooms. This hands-on resource details critical coaching and teaching actions and offers nearly a hundred tools for shifting classroom practice in a way that leads to student math proficiency and understanding of mathematical concepts. Honing in on key areas including content knowledge and worthwhile tasks, student engagement, questioning, and discourse, analysis of student work, formative assessment, support for emergent language learners, and students with special needs, and more. Navigating a coaching conversation, planning and facilitating professional learning communities, finding a focus for professional development or a learning cycle, making connections between professional learning activities, teaching and student learning. Using the coaching cycle plan, gather data, reflect to build trust, and rapport with teachers. With examples from the field, a comprehensive list of resources for effective coaching, and a

plethora of tools you can download and share with teachers this toolkit is your must have guide to designing a professional learning plan and leading with clarity and purpose

Teacher Agency in the Process of State Mandated Reform

Kyle C. Ruggles, 2009 Under No Child Left Behind NCLB federally funded schools and Local Educational Agencies LEAs that do not meet Adequate Yearly Progress AYP criteria for two consecutive years are designated Program Improvement PI mandating participation in school reform interventions In February 2008 the California Department of Education CDE released a corrective action plan mandate requiring all LEAs or school districts in Year 3 of PI to participate in intensive moderate light or other levels of technical support that includes participation in the District Assistance and Intervention Team DAIT process The DAIT process brings outside consultants and district office administrators into schools and classrooms for regular walkthroughs and assessments of improvement plan implementation Yet little is known about how these state mandates influence teachers instructional practices and decision making power or agency This study explores teachers perceptions of the DAIT process and how agency is influenced in an urban fringe pre kindergarten through grade 8 PI school district in California that volunteered to pilot the DAIT process during the 2006 2009 school years The socio cultural theory of learning Gallucci 2003 and the principal agent theory Ferris 1992 guide the analysis of this embedded and longitudinal multi case study of three middle schools and the district office within the PI school district Rich thick qualitative descriptions from 24 teachers and five district office administrators engaged in state mandated reform emerge from the single case and cross case analyses Teachers perceive the DAIT feedback as vague and lacking in teacher involvement in classroom visitations which led to teachers viewing the process as superficial Yet teachers also considered the DAIT process as beneficial in increasing teacher team reflection and collaboration around a singular common instructional focus of reading comprehension which seemed to be positively associated with agency A variance of teacher agency levels was found to depend upon school context and how teachers perceived themselves while balancing the costs and benefits from DAIT feedback Findings also reveal that the DAIT process may have compromised teacher agency due to the lack of teacher participation and involvement in the development of the process potentially eroding teachers sense of professionalism
