

Chapter 2: Medical-Surgical Nursing

1. The nurse navigator is coordinating the transition from the hospital to a rehabilitation facility of a client who had a total hip replacement. Which activity would be an example of the nurse navigator role for this client?

- A. Ensuring cost-effective care
- B. Communicating with the medical insurance company
- C. Educating the client on the goals of rehabilitation
- D. Providing direct care to the client

ANS: C

Rationale: The role of the nurse navigator is to assist clients with transitions in different levels of care, such as from the hospital to a rehabilitation facility. It is the role of a case manager to ensure cost-effective care and to communicate with the medical insurance company. The nurse navigator does not provide direct care to clients.
