ffective Writing for E Learning Environments integrates research and practice in user centered design and learning design
for instructors in post secondary institutions and learning organizations who are developing e learning resources The book is
intended as a development guide for experts in areas other than instructional or educational technology in other words
experts in cognate areas such as Biology or English or Nursing rather than as a learning design textbook The organization of
the book reflects the development process for a resource course or program from planning and development through
formative evaluation and identifies trends and issues that faculty or developers might encounter along the way The account
of the process of one faculty member s course development journey illustrates the suggested design guidelines The
accompanying practice guide provides additional information examples learning activities and tools to supplement the text
