Durham, 1998 Phantom Communities reconsiders the status of the simulacrum sometimes defined as a copy of a copy but
more rigorously defined as a copy that subverts the legitimacy and authority of its model in light of recent debates in
literature art philosophy and cultural studies The author pursues two interwoven levels of analysis On one level he explores
the poetics of the simulacrum considered as a form that internalizes repetition through close readings of a number of
exemplary literary texts paintings and films from both the Anglo American and French traditions including works by Jean
Genet Pierre Klossowski Ren Magritte Andy Warhol J G Ballard Balthus and Ra l Ruiz Through his readings of these works
the author follows the transformations of the simulacrum showing how its vicissitudes provide an optic for remapping the
postmodern canon On another level the author offers an account of the role played by the simulacrum as a theoretical
concept that assumes varying analytical and ideological valences in the writings of such theorists as Jean Baudrillard Fredric

Jameson Michel Foucault and Gilles Deleuze In so doing Phantom Communities intervenes in ongoing interdisciplinary debates concerning the historical and ideological limits of postmodernism as well as the utopian possibilities of art literature and philosophy in a postmodern context Moving between these debates and the interpretation of individual works the author shows how they converge on the fundamental aesthetic and ideological problem raised by the postmodern culture of the simulacrum imagining the virtual communities that at the margins of postmodern culture are at once figured and eclipsed by its proliferating images
