Spin Cycle Ruthy M. Watson, 2019-01-04 This volume was first published by Interdisciplinary Press in 2016 Everyday individuals businesses government institutions and researchers seek to uncover the true meaning of happiness in order to advance themselves or their causes The search is ongoing since happiness is both subjective and objective The same applies to hope What are the thought processes or foundations that foster hope and thus move people forward even when the obvious indicators and circumstances suggest otherwise The numerous activities involved in defining building and maintaining hope and happiness are never straightforward Instead imagine that there is a way to spin the two to create such a belief that those who seek hope and happiness perceive success in its acquisition Even though it is a cycle of highs lows ups and downs This collection of papers will stir readers and evoke thoughts and emotions of hope and happiness based in spirituality reality and personal perception Perhaps an assessment of personal hope and happiness will derive from this very special collection of works presented here *Les origines religieuses du mondialisme*

H. Ryssen, *Archaeological Approaches to Shamanism* Dragoş Gheorghiu, Herman Bender, Emilia Pásztor, George Nash, 2018-04-18 This long awaited book discusses both ancient and modern shamanism demonstrating its longevity and spatial distribution The book is divided into eleven thought provoking chapters that are organised into three sections mind body nature and culture It discusses the clear associations with this sometimes little understood ritualised practice and asks what shamanism is and if tangible evidence can be extracted from a largely fragmentary archaeological record The book offers a novel portrayal of the material culture of shamanism by collating carefully selected studies by specialists from three different continents promoting a series of new perspectives on this idiosyncratic and sometimes intangible phenomenon
