Barry Bernstein,1992 *Holt Mcdougal Literature* HOLT MCDOUGAL,2011-01-13 The Death and Resurrection of a
Coherent Literature Curriculum Sandra Stotsky,2012-06-14 This book is addressed to teachers who know that the secondary
literature curriculum in our public schools is in shambles Unless experienced and well read English teachers can develop
coherent and increasingly demanding literature curricula in their schools average high school students will remain at about
the fifth or sixth grade reading level where they now are to judge from several independent sources This book seeks to
challenge education policy makers test developers and educators who discourage the assignment of appropriately difficult
works to high school students and make construction of a coherent literature curriculum impossible It first traces the history
of the literature curriculum in our middle schools and high schools and shows how it has been diminished and distorted in
the past half century It then offers examples of coherent literature curricula and spells out the cognitive principles upon
which coherence is based Finally it suggests what English teachers in our public schools could do to develop a literature
curriculum that gives all their students an adequate basis for participation in an English speaking civic culture *Reading*
