Henry Newman and the Development of Doctrine Stephen Morgan, 2021-11-26 John Henry Newman and the Development of Doctrine provides an analysis of the attempts by John Henry Newman to account for the historical reality of doctrinal change within Christianity in the light of his lasting conviction that the idea of Christianity is fixed by reference to the dogmatic content of the deposit of faith It argues that Newman proposed a series of hypotheses to account for the apparent contradiction between change and continuity that this series begins much earlier than is generally recognized and that the final hypothesis he was to propose contained in An Essay on the Development of Christian Doctrine provides a methodology of lasting theological value and contemporary relevance Stephen Morgan establishes the centrality of the problem of change and continuity in theology to Newman s theological work as an Anglican its part in his conversion to Catholicism and its contemporary relevance to Catholic theology It also surveys the major secondary literature relating to the question with particular reference to those works published within the last fifty years Additionally Morgan considers the legacy of the Essay as a tool in Newman s theology and in the work of later theologians finally suggesting that it may offer a useful methodological contribution to the contemporary Catholic debate about hermeneutical approaches to the Second Vatican Council and post conciliar developments in doctrine **Emerging Infectious Diseases** ,2018-07 **The Journal of the International College of Surgeons** International College of Surgeons, 1959 **Lifestyle Medicine, Fourth**
