Japanese Architecture As A Collaborative Process:

Japanese Architecture as a Collaborative Process Dana Buntrock, 2014-09-04 Architects throughout the world hold Japan's best architecture in high regard considering the country's buildings among the world's most carefully crafted and innovative. While many books, magazines, and exhibitions have focused on the results of architectural practice in Japan, this book is the first to explain the reasons for Japan's remarkable structures. Architecture does not occur in isolation; Japan's architects are able to collaborate with a wide variety of people from professional consultants to constructors. Dana Buntrock discusses architecture as a part of the construction community, moving from historical precedents that predate the emergence of the architectural profession in Japan through to contemporary practices. *Materials and Meaning in Contemporary Japanese Architecture* Dana Buntrock, 2013-09-13 In this beautiful and perceptive book, Dana Buntrock examines for the first time how tradition is incorporated into contemporary Japanese architecture. Looking at the work of five architects: Fumihiko Maki, Terunobu Fujimori, Ryoji Suzuki, Kengo Kuma, and Jun Aoki, Buntrock reveals the aims influencing many wonderful works barely known in the West: the sensual side of Japanese architecture, borne out of approaches often less concerned with professionalism than with people and place. The buildings described in this book illustrate an architecture that embraces uniqueness, expressing unusual stories in the rough outlines of rammed earth and rust, and demonstrating new paths opening up for architectural practice today. For some, these examples will offer new insight into expressions of tradition in Japanese architecture; for others, this book offers inspiration for their own efforts to assert the unique heritage of other regions around the world. Compelling, insightful, and groundbreaking, this book is essential for everyone studying Japanese architecture and anyone trying to invoke narrative and tradition in contemporary design. Constructing Japan Beate Loeffler, 2025-09-25 The influence of Japanese art and culture on art in late 19th-century Europe and America through collections of objects and knowledge transfer is already recognised. However, the research in this field often neglects architecture. This study takes a new approach, placing architecture at the centre. Through in-depth analysis of contemporary textual and visual sources, Beate Loeffler shows how western actors from different backgrounds interpreted Japanese architecture as they experienced it, either face to face or via texts and images. It unveils a complex process of appropriation and rejection of claim to interpretive sovereignty and fascination with the foreign that led to both new knowledge and cultural clichés. *Materials and Meaning in Contemporary Japanese Architecture* Dana Buntrock, 2013-09-13 In this beautiful and perceptive book, Dana Buntrock examines for the first time how tradition is incorporated into contemporary Japanese architecture. Nurturing Dreams Fumihiko Maki, 2012-09-21 Unavailable as a collection until now these essays document both the intellectual journey of one of the world's leading architects and a critical period in the evolution of architectural thought Born in Tokyo educated in Japan and the United States and principal of an internationally acclaimed architectural practice celebrated architect Fumihiko Maki brings to his writings on architecture a perspective that is both global and uniquely Japanese Influenced by post Bauhaus internationalism sympathetic to the radical urban architectural vision of Team X and a participant in the avant garde movement Metabolism Maki has been at the forefront of his profession for decades This collection of essays documents the evolution of architectural modernism and Maki's own fifty year intellectual journey during a critical period of architectural and urban history Maki's treatment of his two overarching themes the contemporary city and modernist architecture demonstrates strong and sometimes unexpected linkages between urban theory and architectural practice Images and commentary on three of Maki's own works demonstrate the connection between his writing and his designs Moving through the successive waves of modernism postmodernism neomodernism and other isms these essays reflect how several generations of architectural thought and expression have been resolved within one career

The Rise of Awards in Architecture Jean-Pierre Chupin, Carmela Cucuzzella, Georges Adamczyk, 2022-09-06 This book is the first scientific study to focus on awards in architecture and the built environment investigating their exponential growth since the 1980s The celebration of excellence in architecture and related fields remains a phenomenon on which there is strangely little scientific scrutiny What is to be understood from the plethora of award winning projects award winning buildings and awarded professional practices in the built environment year after year Glossy images partake in an intense ballet at every local regional national or international award ceremony and they are meant to embody proofs of architectural excellence However it is necessary to take a critical distance to question what awards are meant to embody symbolize and perhaps measure Each of the 10 chapters in this volume is centered on one question related to themes as varied as the comparison of Pritzker and Nobel Prizes the Prix de Rome the redefinition of quality through awards green awards and sustainability the multiplication of sustainable awards heritage awards architecture book awards the awarding of school architecture awards as mediations and awards as pedagogical devices Many fields once consolidated have featured a sharp increase in related prizes The original data compiled and summarized in 4 appendices cover more than 150 award granting organizations in some 30 countries Our inventory includes upwards of 24 000 prizes awarded at more than 3 100 events the earliest of which is the first instance of Western architecture's seminal Grand Prix de Rome in France in 1720 A

history of contemporary architecture is thus written through press releases that praise the merits of the heroes as much as their works and achievements And while awards can be vehicles that propel architecture forward they can also be Trojan horses in an era that is constantly on the lookout for event driven products small and big news and brand imaging Portico University of Michigan. College of Architecture and Urban Planning,2003 **Advanced Seminar Japanese Craft & Construction** ,2001 Architectural Record ,2001 **In Detail: Japan** Christian Schittich,2002 Japan is becoming a popular travel destination for more and more architects today With its wide variety of architecture it is both a source of fascination and inspiration Over a number of years the review Detail has been consistently documenting the construction activities which have taken place in Japan and this book draws on the best of their experience and connections to present and analyse with plans and details the most interesting buildings from various architectural trends in contemporary Japan including Ando s Museum for Contemporary Art in Naoshima Toyo Ito s Mediathek a residential building by Kazuyo Sejima and a temple gallery in Kyoto by Takashi Yamaguchi Introductory essays discuss the developments in Japanese architecture and together with portraits of not only well known Japanese architects and offices but also young offices such as Atelier Bow Wow this volume provides a stimulating discussion of current Japanese building in the context of traditional architecture
