Maine Voter Guide 2006:

A Look at H.R. 1826, and the Public Financing of Congressional Campaigns United States. Congress. House. Committee on House Administration, 2009 **Reforming Legislatures** Peverill Squire, 2024-06-26 Winner of the 2025 Virginia Gray Book Award APSA Section 22 State Politics and Policy Legislatures are ubiquitous in the American political experience First created in Virginia in 1619 they have existed continuously ever since Indeed they were established in even the most unlikely of places notably in sparsely populated frontier settlements and functioned as the focal point of every governing system devised Despite the ubiquity of state legislatures we know remarkably little about how Americans have viewed them as organizations in terms of their structures rules and procedures But with the rise of modern public opinion surveys in the twentieth century we now have extensive data on how Americans have gauged legislative performance throughout the many years That said the responses to the questions pollsters typically pose reflect partisanship policy and personality Generally respondents respond favorably to legislatures controlled by their own political party and those in power during good economic times Incumbent lawmakers get ratings boosts from having personalities home styles that mesh with those of their constituents These relationships are important indicators of people s thoughts regarding the current performance of their legislatures and legislators but they tell us nothing about attitudes toward the institution and its organizational characteristics This study offers a unique perspective on what American voters have historically thought about legislatures as organizations and legislators as representatives Rather than focusing on responses to surveys that ask respondents how they rate the current performance of lawmakers and legislatures this study leverages the most significant difference between national and state politics the existence of ballot propositions in the latter At the national level Americans have never had any say over Congress s structure rules or procedures In contrast at the state level they have had ample opportunities over the course of more than two centuries to shape their state legislatures The data examined here look at how people have voted on more than 1 500 state ballot propositions targeting a wide array of legislative organizational and parliamentary features By linking the votes on these measures with the public debates preceding them this study documents not only how Americans viewed various aspects of their legislatures but also whether their opinions held constant or shifted over time The findings reported paint a more nuanced picture of Americans attitudes toward legislatures than the prevailing one derived from survey research When presented with legislative reform measures on which concrete choices were offered and decisions on them had to be made the analyses presented here reveal that counter to the conventional wisdom that people loved their representatives but hated the legislature voters usually took charitable positions toward the institution while harboring skeptical attitudes about lawmakers motives and behaviors *The Ocean and Coastal Conservation Guide 2005-2006* David Helvarg, 2005-06-20 The Ocean and Coastal Conservation Guide details more than 2 000 organizations and institutions that are working to understand protect and restore our ocean and coastal areas For each entry the book gives

contact information including phone and fax numbers email addresses web addresses and a brief description of program areas of interest Exploring Initiative and Referendum Law Beth Williams,2013-10-18 Researching ballot measures can be one of the most daunting types of legal research Exploring Initiative and Referendum Law Selected State Research Guides offers legal researchers an easy to use guide that provides thorough overviews of I R initiative and referendum laws within twenty three states This unique resource provides state specific guidance about both forms of I R law those state laws permitting I R and those state laws enacted as a result of the I R process Any legal researcher beginning a project or needing to know just where to go for the right resources will get helpful general and specific information on practical research strategies and resources Up to now finding the literature to research the state specific history of a law passed by initiative or referendum has been extremely difficult This book fills this gap by providing top researchers with brief overviews of the individual state processes while providing important primary and secondary sources including Web sites The guide s chapters are separated alphabetically by state for fast and easy reference Annotated bibliographies of books articles and Web sites are provided along with instructions about what documents one can expect to find on the Web and how to use free databases Because of this useful volume s unique focus the book may well become an essential resource for law librarians attorneys law faculty law students and Political Science scholars This book was published as a special issue of Legal Reference Services Quarterly Civil Rights Division Oversight United States. Legislature of the State of Maine** Maine. Legislature,1984 **Erosion of the Property Tax Base** Nancy Y. Augustine,2009 Increased reliance on residential property to generate tax revenue and soaring property values in many parts of the country have placed pressure on local officials to respond to concerns about higher property taxes The result has been erosion of the property tax base through a variety of policies designed to relieve residential property tax burdens through exemptions or abatements The chapters in this book provide

analyses of recent property tax trends examine several responses to the increasing importance of residential property estimate the extent of property tax base erosion and its effects and consider other related topics The erosion of the property tax base raises serious concerns about the future health of our federal system of government and the continued ability of local governments to protect what de Tocqueville called America s passion for popular sovereignty This book is a result of the ongoing collaboration between the Lincoln Institute of Land Policy and the George Washington Institute of Public Policy presents the findings from the 2007 inaugural Property Tax Roundtable **America Votes!** ,2008 **2006 Candidate Guide** ,2006 Official Voter Information Guide ,2006-06
