A Peculiar Indifference Elliott Currie, 2020-09-15 A NEW YORK TIMES NOTABLE BOOK OF THE YEAR From Pulitzer Prize finalist Elliott Currie comes a

devastating exploration of the extreme levels of violence afflicting Black communities and a blueprint for addressing the crisis About 170 000 Black Americans have died in homicides just since the year 2000 Violence takes more years of life from Black men than cancer stroke and diabetes combined a young Black man in the United States has a fifteen times greater chance of dying from violence than his white counterpart Even Black women suffer violent death at a higher rate than white men despite homicide s usual gender patterns Yet while the country has been rightly outraged by the recent spate of police killings of Black Americans the shocking amount of everyday violence that plagues African American communities receives far less attention and has nearly disappeared as a target of public policy As acclaimed criminologist Elliott Currie makes clear this pervasive violence is a direct result of the continuing social and economic marginalization of many Black communities in America Those conditions help perpetuate a level of preventable trauma and needless suffering that has no counterpart anywhere in the developed world Compelling and accessible drawing on a rich array of both classic and contemporary research *A Peculiar Indifference* describes the dimensions and consequences of this enduring emergency explains its causes and offers an urgent plea for long overdue social action to end it *Spinal Cord Medicine, Third Edition* Steven Kirshblum, Vernon W. Lin, 2018-12-28 In this comprehensive clinically directed reference for the diagnosis and treatment of persons with spinal cord injury and related disorders editors of the two leading texts on spinal cord injury SCI medicine have joined together to develop a singular premier resource for professionals in the field *Spinal Cord Medicine Third Edition* draws on the expertise of seasoned editors and experienced chapter authors to produce one collaborative volume with the most up to date medical clinical and rehabilitative knowledge in spinal cord injury management across the spectrum of care This jointly configured third edition builds on the foundation of both prior texts to reflect the breadth and depth of the specialty Containing 60 state of the art chapters the book is divided into sections covering introduction and assessment acute injury management and surgical considerations medical management neurological and musculoskeletal care rehabilitation recent research advances system based practice and special topics New and expanded content focuses on the significant changes in the epidemiology of traumatic injury the classification of SCI and the latest medical treatments of multiple medical complications In addition chapters discuss new surgical considerations in acute and chronic SCI and the many advances in technology that impact rehabilitation and patients overall quality of life With chapters authored by respected leaders in spinal cord medicine including those experienced in spinal cord injury medicine physical medicine and rehabilitation neurology neurosurgery therapists and researchers this third edition goes beyond either of the prior volumes to combine the best of both and create a new unified reference that defines the current standard of care for the field Key Features Covers all aspects of spinal cord injury and disease with updates on epidemiology of spinal cord injury the classification of spinal cord injury newer methods of surgical intervention post injury updates to medications advances in rehabilitation and changes in technology Brings together two leading references to create a singular evidence based

resource that defines the current standard of care for spinal cord medicine Presents the most current medical clinical and rehabilitation intelligence Chapters written by experts across the spectrum of specialists involved in the care of persons with spinal cord injury Includes access to the downloadable ebook **Congressional Record** United States.
