Major Problems In American Business History:

Major Problems in American Business History Regina Lee Blaszczyk, Philip Scranton, 2006 Designed to encourage critical thinking the Major Problems in American History series introduces students to both primary sources and analytical essays on important topics in U S history The central theme of this volume asserts that the history of business is inexorably linked to politics and culture The authors explore specific issues including foreign policy race and ethnicity gender religion work leisure and technological innovation as well as high and low culture

European fashion Regina Lee Blaszczyk, Véronique Pouillard, 2018-02-07 The period since 1945 has been a transformative era for the fashion industry Over the course of seventy years the fashion world has moved from celebrating the craftsmanship of haute couture to revelling in ever changing fast fashion This volume examines the transition from the old system to the new in a series of case studies grouped around three major themes Part I focuses on Paris as a creative hub aiming to understand how the birthplace of haute couture adapted to late twentieth century developments Part II considers the retailer s role in shaping taste responding to consumer expectations and disseminating fashion merchandise Part III looks to alternative visions of the European fashion system that have appeared in unexpected places The volume is highly interdisciplinary covering design history cultural anthropology ethnography management studies and the cultural history of business

Capitalism and the Senses Regina Lee Blaszczyk, David Suisman, 2023-06-13 Capitalism and the Senses is the first edited volume to explore how the forces of capitalism are entangled with everyday sensory experience If the senses have a history as Karl Marx wrote then that history is inseparable from the development of capitalism which has both taken advantage of the senses and influenced how sensory experience has changed over time This pioneering collection shows how seeing hearing tasting smelling and touching have both shaped and been shaped by commercial interests from the turn of the twentieth century to our own time From the manipulation of taste and texture in the food industry to the careful engineering of the feel of artificial fabrics capitalist enterprises have worked to commodify the senses in a wide variety of ways Drawing on history anthropology geography and other fields the volume s essays analyze not only where this effort has succeeded but also where the senses have resisted control and the logic of markets The result is an innovative ensemble that demonstrates how the drive to exploit sensorial experience for profit became a defining feature of capitalist modernity and establishes the senses as an important dimension of the history of capitalism Contributors Nicholas Anderman Regina Lee Blaszczyk Jessica P Clark Ai Hisano Lisa Jacobson Sven Kube Grace Lees Maffei Ingemar Pettersson David Suisman Ana Mar a Ulloa Nicole Welk Joerger
