Accounting Standards

BASIC CONCEPTS

Accounting Standards (ASs)

Accounting Standards (ASs) are written policy documents issued by expert accounting body or by government or other regulatory body covering the aspects of recognition, measurement, presentation and disclosure of accounting transactions in the financial statements. Accounting Standards 1, 2, 3, 6, 7, 9, 10, 13 and 14 are covered in this paper.

Applicability of Accounting Standards**Question 1**

What are the issues, with which Accounting Standards deal?

Answer

Accounting Standards deal with the issues of

- (i) Recognition of events and transactions in the financial statements,
- (ii) Measurement of these transactions and events,
- (iii) Presentation of these transactions and events in the financial statements in a manner that is meaningful and understandable to the reader, and
- (iv) Disclosure requirements which should be there to enable the public at large and the stakeholders and the potential investors in particular, to get an insight into what these financial statements are trying to reflect and thereby facilitating them to take prudent and informed business decisions.

Question 2

List the criteria to be applied for rating a non-corporate entity as Level-I entity for the purpose of compliance of Accounting Standards in India.

Answer

Non-corporate entities which fall in any one or more of the following categories, at the end of the relevant accounting period, are classified as Level I entities:

succeeds in following an environmentally sustainable path However those working in the financial sector are largely unaware of the rationale and pressures for sustainable development and its bearing on their work while those in the relevant research and policy areas commonly overlook how vital the financial sector is for progress Marcel Jeucken sets out to rectify this state of affairs in a style which is accessible to those with no experience of environmental finance issues He provides a comprehensive account of their interdependence why the financial sector is crucial to achieving sustainability and why the triple bottom line of commercial environmental and social success points the way forward for banking From a systematic assessment of major banks around the world he presents a comprehensive account of current best practice an analysis of the differences in approach and performance and recommendations of actions and policies for improved performance that will contribute to sustainable development

Sustainability in Finance Marcel Jeucken, 2004 Financial institutions are often the crucial factor in a society's progress toward sustainable development Yet financial workers and public policy researchers are largely unaware of this role Sustainability in Finance seeks to bridge this gap as it posits a theoretical foundation for a finance policy partnership The volume presents an innovative analysis of current practices at both global financial institutions and banks in developing countries and ultimately offers a valuable consideration of the future of sustainable development
