Different Types of History Bharati Ray, 2009
The Ottoman and Mughal Empires Suraiya Faruqi, 2019-08-08 For many years Ottomanist historians have been accustomed to study the Ottoman Empire and or its constituent regions as entities insulated from the outside world except when it came to campaigns and conquests on the one hand and incorporation into the European dominated world economy on the other However now many scholars have come to accept that the Ottoman Empire was one of the not very numerous long lived world empires that have emerged in history This comparative social history compares the Ottoman to another of the great world empires that of the Mughals in the Indian subcontinent exploring source criticism diversities in the linguistic and religious fields as political problems and the fates of ordinary subjects including merchants artisans women and slaves

The Mughals of India Harbans Mukhia, 2008-04-15 This innovative book explores of the grandest and longest lasting empire in Indian history Examines the history of the Mughal presence in India from 1526 to the mid eighteenth century Creates a new framework for understanding the Mughal empire by addressing themes that have not been explored before Subtly traces the legacy of the Mughals world into today's India

The Sky Poured Down Candy Riya Gupta, 2025-09-18 Bringing together archival research and literary analysis this microhistorical study explores the decline of the Mughal empire through the life of a petty Mughal official Abdul Jalil Bilgrami as he navigated uncertainty amid the shifting currents of imperial power Illuminating the everyday realities of a fading dynasty on the Indian subcontinent the book offers a deeply

personal lens into Bilgrami's socio cultural world. It also engages with broader questions of historical methodology demonstrating how literary evidence such as personal letters and poems can breathe life into structural histories. By centring a lesser known historical figure it challenges conventional elite centric narratives and underscores the value of microhistory in understanding larger historical processes. This volume will appeal to scholars, students and general readers of Mughal history, South Asian studies, microhistory and global literary studies. It is an ideal resource for educators seeking to enrich their courses as part of these specializations and diversify their recommended reading.

Wages and Currency Jan Lucassen, 2007. The basic hypothesis of this volume is that currency patterns may tell us something about the spread of wage payments in specific societies in history. The book discusses the relationship between wages and currency with reference to different countries and regions in Europe, Asia and South America over more than 2000 years.

The State and Society in Medieval India J. S. Grewal, 2005. The Feudalism Debate Harbans Mukhia, 1999. This volume arose as part of global interest in the problematic of feudalism in the 1980s, opening up both its theoretical premises and the empirical basis to extensive deep and varied explorations. Most explorations were grounded in Marxist theory. In 1981 Harbans Mukhia's essay 'Was There Feudalism in Indian History?' was published in *The Journal of Peasant Studies* which triggered an international debate on the problem in the journal's special issue in 1985 and some subsequent issues. Among the central questions was the tension between the Marxist conception of capitalism as the first world system and several Marxist historians' construction of feudalism as a universal category. The spatial dimensions of the problem were extended to include China, Turkey and Arabia besides Europe and India in the course of the debate. The questioning of some of the received wisdom understandably leads to both fierce defence on its behalf as well as further questions. This extensive reopening of all firmly held views turned the debate into a most satisfying experience for it emphasized exploration rather than agreement. Most contributions to the debate are being published in this volume.

A Comprehensive History of India, 2008. History of Civilizations of Central Asia: Development in contrast : from the sixteenth to the mid-nineteenth century Chahryar Adle, Irfan Habib, 1992. The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology. Furthermore, this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe. The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade. Thus 1850 marks the end of the total sway of pre-modern culture as the extension of colonial

dominance was accompanied by the influx of modern ideas **Aspects of Indian History** Jai Prakash Mishra, Ram Mohan Sinha, 1991 Most articles are on the 19th and 20th century history of India Indian Journal of History of Science ,2000
