La Démocratie Participative Droit Et Sciences Politiques:

La démocratie participative Jean-Pierre Gaudin, 2007-08-29 La démocratie participative est souvent présentée comme le remède idéal à la crise du politique. Inspirée notamment d'expériences sud-américaines déformée par les mouvements altermondialistes et fortement relayée par les médias, la participation pourrait selon certains apporter une réponse à cette crise. Mais pour le politologue, cette nouvelle forme d'implication des citoyens soulève plus de questions qu'elle n'apporte de réponses : comment s'organise le débat public et dans quels cadres ? Ne risque-t-on pas de créer une société de la cooptation généralisée voire d'alimenter les populismes ? *Débat* : ouvrage qui analyse les processus participatifs aujourd'hui pratiqués ou envisagés. Et qui pour en juger pleinement les replace dans les réflexions d'ensemble portant sur la démocratie et la souveraineté. Ce livre intéressera les étudiants en science politique, en droit, en sociologie et tous ceux qui réfléchissent ou prennent part à la vie politique et associative. Jean-Pierre Gaudin, spécialiste de l'analyse des politiques publiques, est professeur des universités à l'Institut d'études politiques d'Aix-en-Provence. *Fondements de science politique* Thierry Balzacq, Pierre Baudewyns, Jérôme Jamin, Vincent Legrand, Olivier Paye, Nathalie Schiffino, 2014-10-06 Un homme, une voix quand remonte le suffrage universel incluant galement les femmes. Pourquoi y a-t-il un grand nombre de partis avec un poids significatif en Belgique, contre principalement deux sur le plan fédéral aux États-Unis ? Quelle différence y a-t-il entre le socialisme et le communisme ? Entre un régime démocratique et un régime autoritaire voire totalitaire ? Souvent perçue comme jeu de stratégie ou conquête du pouvoir, parfois associée à des scandales et affaires de corruption, la politique est pourtant principalement l'art d'organiser le vivre ensemble. Cet ouvrage se veut une boussole pour pénétrer la jungle politique, un guide permettant de ne pas subir les événements sans les comprendre. Fruit de la rédaction collective de six auteurs animés par un souci pédagogique, fort, ce manuel entend être un véritable outil pour faire comprendre les phénomènes politiques qui nous entourent. Destin à un public francophone, ses illustrations vont cependant bien au-delà de l'aire belge, française, suisse ou canadienne. Chaque chapitre peut être consulté de façon autonome par des publics issus d'études et de niveaux différents. De nombreux encadrés thématiques, des orientations bibliographiques et un index enrichissent le propos. Pour les étudiants, pour qui il constituera un ouvrage de référence tout au long de leur cursus, grâce à son caractère synthétique et progressif. Pour les citoyens, pour qui il représentera une ressource pour mieux comprendre le monde et l'actualité politiques. **La démocratie participative : enjeux et réalités** Gilles Lebreton, 2013-05-01 Suite aux critiques formulées à l'encontre de la démocratie représentative, a été forgé le concept de démocratie participative. Il décrie la tentative de trouver une voie médiane entre démocratie représentative et démocratie directe. La démocratie participative est-elle vraiment cette voie médiane qu'elle prétend être ou n'est-elle qu'un leurre destin à redorer le blason de la démocratie représentative ? Quel bilan peut-on dresser de l'étendue et de l'efficacité de ses réalisations ? *Leçons d'Introduction à la Science politique* Rémi Lefebvre, 2025-09-02 La 5^e édition revue et augmentée de ce manuel d'introduction à la science politique propose 50 leçons détaillées des repères incontournables et des compléments pour

gagner des points des sujets corrigés classiques ou difficiles pour s'entraîner avant l'examen ou le concours un questionnaire avec de nombreux QCM pour faire le point sur ses connaissances une sélection de lectures pour aller plus loin un index des notions Public Cet ouvrage s'adresse aux étudiants en Licence et Master de droit aux étudiants en Instituts d'études politiques Rami Lefebvre est professeur de Sciences politiques à l'Université de Lille

Le droit de prendre son destin en main Nicolas Bueno, 2015-09-16 La démocratie est-elle une valeur universelle que le droit international peut promouvoir La démocratie ne peut être exportée internationalement ou imposée par la force elle doit se consolider l'intérieur d'un état Les droits politiques internationaux comme le droit des élections libres la liberté d'expression et d'association politique sont même de consacrer de nouveaux modèles de démocratie en garantissant l'égalité politique dans l'exercice du contrôle populaire Cet ouvrage est destiné toute personne travaillant la promotion de la démocratie Il synthétise l'ensemble des documents internationaux relatifs la démocratie et propose une notion de la démocratie en droit international Il est un guide pour l'analyse de la jurisprudence des organes internationaux des droits de l'homme sur les droits politiques

From Deliberation to Demonstration Paula Cossart, 2017-05-19 This book reveals the transformation of political rallies in France from the last years of the Second Empire until the end of the Third Republic Originally designed by Republicans as a tool of citizenship learning and formation of political opinion through open debate rallies gradually became a stage dedicated to the show of force at the initiative of various emerging political formations This distortion is marked by the turn of the twentieth century but is observed even more in the rallies held between the two world wars Faced with this transformation the government does not hesitate in the second half of the 1930s to invalidate the liberal credo that based the right of assembly since the installation of the Republic This book at the crossroads of history and political science is an important contribution to our understanding of political life of that period An essential form of collective political participation the rallies had never been the subject of major research The author also contributes to the reflection more relevant than ever on the status of public debate in representative regimes Participatory democracy has a history that this book helps to trace
