

## **Online installation using YUM**

Please note that ircDDBGateway requires a DStar-repeater. This might either be a software repeater built from modules of the G4KLX PCRepeaterController package, or a typical Icom Repeater with a controller ID-RP2C and one or more Icom repeater modules. A combination of hard- and software repeater is also supported.

ircDDBGateway is available for Windows and Linux systems from the G4KLX website  
<http://db0fhn.efn.fh-nuernberg.de/~g4klx/>

Beta versions are only available in the files section of the Yahoo Group "ircDDBGateway"  
<http://groups.yahoo.com/group/ircDDBGateway>

Source code is available from the SVN Berlios ([www.berlios.de](http://www.berlios.de) , project "opendv")

The Windows version is provided as a self installing executable, the Linux version is available in form of source code for self compilation and installation, CentOS and Debian packages.

A comfortable way to install the ircDDBGateway software on Linux systems is to use package managers like YUM and APT for full automated online installation.

You do not need any development tools, no additional libraries have to be searched and installed manually, no compilation of source code, no experience with development work, neither resources on your gateway system, nor a special development system.

An ircDDBGateway YUM package is available for CentOS5 and Debian.

CentOS5 is the standard Linux distribution for DStar gateways, running on more than 70% of all gateways worldwide. This YUM package may be used to easily upgrade IcomG2 installations. Do not uninstall an existing IcomG2 installation, the install script will use its' preferences and allows to keep the registration database active if required.

CentOS5 is available for download and on CDs/DVDs.

Please check <http://www.centos.org> to find more details and mirrors for downloads.

Note that we composed and tested the package with CentOS5, but already have got feedback that the installation also works with CentOS6.

Please find information on additional requirements for CentOS6 below.

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
