Terrorism in Contemporary France Jan Eichler,2023-01-29 This book examines radical Jihad terrorism in contemporary France and sheds light on the vicious circle of violence based on reciprocity Building upon the theoretical heritage of Pierre Bourdieu the book develops a methodology and a concept of the vicious circle of violence in France based on three pillars actors dynamics and effects Discussing the development of global terrorism between the 9 11 attacks and the launch of the European front against global terror in Spain and Great Britain the book goes on to analyze why France has not been attacked during the 2000s and why it in turn became a primary target of terrorist attacks during the 2010s with a special emphasis on communication theory and the concept of reciprocity Studying these attacks on the international level the book offers insights into violent acts of revenge of the radical home grown jihadists for the French military interventions in four Middle Eastern and North African MENA countries especially Libya and Syria It further investigates the following growing radicalization of the Muslim community on the national level as a reason for terrorist attacks Finally the book sheds light on

the reactions from within the French military to these developments before closing with a presentation of the new political context after the 2022 presidential and legislative elections Based on empirical evidence and a theoretical background this book will appeal to students and scholars of political science and international relations as well as policy makers and practitioners interested in a better understanding of terrorism French politics and communication theory **Subject Index**
