

## **The Concept of Morality in Hamlet: Literary Essay Sample Essay**

### **Introduction**

The play Hamlet by William Shakespeare demonstrates a constant struggle with the influence of consciousness. The characters face the temptation to satisfy their evil personal desires as they consider vengeance, which is against their religious beliefs. The perception of morality is administered by societal principles that provide a clear distinction between good and evil. The play expresses the dilemma in justifying the commitment of a malicious act to eliminate greater evil. It questions the price for justice as the characters attempt to determine whether to act or avoid revenge. The play examines the significance of morality in the quest for justice by portraying evil at the expense of ethics.

### **The Influence of Consciousness: Struggles With Evil Desires and Religious Beliefs**

Upon the King's assassination, his son Hamlet decides to seek vengeance. Hamlet's conscious, however, stops him from actualizing. He contemplates suicide but dismisses the thoughts by considering it a sinful act. An encounter with his late father's spirit advances his inner struggles, and he decides to kill Claudius, the suspected murderer (Shakespeare 8). Again, his religious beliefs prevent him from acting. His moral spectrum delays his decision, and he opts to determine the legitimacy of the King's murder before taking action. Hamlet only pursues his father's will after the alienation from his aspect of morality.

Hamlet continues to deliberate on what amounts to justice. In as much as he feels he is justified to kill Claudius, he stops for a moment to ponder upon the repercussions. He decides to stop Claudius's evil from spreading in the kingdom. Hamlet's capability of stopping Claudius is an authority given to him by the ghost and moral duty. This act he does is considered an exchange for the evil act of murder, which he intended to commit. The good deed represents a more significant gain for the greater good.

Additionally, Hamlets agrees with the ghost and considers the spirit to be a source of authority because he trusts it. However, Hamlet fills with agony after much thought on fulfilling the duties imposed on him by the ghost (Shakespeare 16). Claudius confesses to the audience about killing the King. Hamlet is, however, unaware of this. The audience feels the tension when Hamlet gets on stage when Claudius is about to complete his confession. He is indeed the murderer. However, Hamlet still believes in the ghost's and is still uncertain. He, therefore, decided to make a moral decision despite the struggle with his conscience.
