

CORPORATION

A legal form of business organization wherein the firm's owners or stockholders have limited liability. Courts view corporations as "artificial persons." They can enter into contracts, owe debts, pay taxes, and be sued.

Corporate Decisions

Investment in capital assets: The real (physical) assets that a firm owns. Capital asset decisions involve determining which capital projects to invest in and how much money should be invested in various real assets.

Financing: Decisions include determining what securities or financial assets the firm should issue to raise funds and how much money should be raised through the issuance of securities.

Dividend: A dividend is a sharing of profits with the shareholders as a reward for the risk they have taken by investing in the business. Dividend decisions involve how much of a cash dividend, if any, the company can afford and what portion of the firm's profits should be paid to stockholders in the form of dividends.

Dividends can take the form of shares (stock dividends) of the company's stock, or in rare cases, property (property dividends).

Working capital and cash flow: Management of current assets and current liabilities. These decisions involve determining if the working capital will be adequate to run the business day-to-day and whether the cash balances will be sufficient to meet payments as they come due.

Credit management: The approval of a credit request by customers and the management and collection of accounts receivable. Credit decisions are based on evaluation of the strengths and weaknesses of the applicant and management of credit involves monitoring the age of accounts receivable and the collection efforts.

Goal of the firm: To maximize shareholders' wealth (the price of the firm's common stock). Many decisions impact the maximization of shareholder value, including those that impact liquidity, profitability, efficiency, and maintain an excellent reputation.

Role of Directors

Elected by the shareholders, the directors act on behalf of the shareholders by establishing board policies and objectives, appointing top officers such as the CEO, approving budgets, and voting on dividends and other major corporate decisions.

FINANCIAL STATEMENTS

Records that report the sources and uses of cash, financial condition, and the results of operations for a corporation. Users of financial statements digest the messages of these reports as important decisions can be made, such as whether to grant credit and invest while government entities analyze financial statements in order to regulate businesses. Users of financial statements include owners of firms, potential investors, creditors, and government regulatory agencies.

Balance Sheet

- Shows a "snapshot" of a company's financial standing.
- Shows readers what a business owns and what it owes at a specific point in time.
- Also called a statement of financial position.

Assets:

- Represent a company's resources.
- To qualify as an asset, the following requirements apply:
 - A company must own the resource.
 - The resource must be of value.
 - The resource must have a quantifiable (measurable) cost.

Balance sheet formula:
 Assets = Liabilities + Owners' equity

Liabilities:

- Represent what a company owes to others.
- To qualify as a liability, the following requirements apply:

FINANCIAL RATIOS

The Objective of Ratio Analysis

- Used to facilitate financial statements interpretation.
- Reduces the large number of financial statement items to a relatively small set of ratios.
- There are certain caveats when conducting ratio analysis:
 - A single ratio does not provide sufficient information from which to judge overall performance.
 - Financial statements should be compared at the same point in time during the year.
 - Audited financial statements are preferable.
 - Maintain consistency in accounting methods.
 - Consider the effects of inflation if comparing companies over long periods of time.

Liquidity Ratios

The measure of a firm's ability to meet its short-term obligations. Used by credit managers, loan officers, and others who evaluate the credit worthiness of a business entity.

Current ratio = $\frac{\text{Current assets}}{\text{Current liabilities}}$

Quick ratio = $\frac{\text{Current assets} - \text{Inventory}}{\text{Current liabilities}}$

Net working capital to total assets ratio = $\frac{\text{Current assets} - \text{Current liabilities}}{\text{Total assets}}$

- Must be quantifiable (measurable)
 - Occurrence must be probable
- Shareholders' Equity**
- Represents sources of funds through:
 - Equity investments
 - Retained earnings (what the company has earned through operations since its inception)

Valuation

- Currently, the historical cost regime is the practical guiding principle under generally accepted accounting principles (GAAP).
- However, the concept of fair value, as a superior method of valuation, has gained momentum.

Income Statement

- Shows the revenues earned and the expenses incurred during a particular period of time.
- Demonstrates how much a company earns over a specific time period.
- Associates (matches) costs and expenses with the earning of revenue.
- Also called:
 - Profit and loss statement (P&L)
 - Consolidated statement of earnings
 - Statement of revenues and expenses
- Revenues: Inflows of cash or other assets or reductions in liabilities resulting from producing, delivering, or providing goods or services constituting an entity's central operations.

- Expenses: Outflows of cash or other assets or incurrence of liabilities resulting from producing, delivering, or providing goods or services constituting an entity's central operations.

Sales Revenue

- Cost of goods sold (COGS)
 - Gross profit (GP)
 - Administrative expenses
 - Depreciation
 - Other expenses
 - Earnings before interest and taxes (EBIT)
 - Interest
 - Earnings before taxes
 - Taxes
 - Net income (net profit)

Statement of Retained Earnings

Shows the changes in the retained earnings account during the same period of time as the income statement.

Beginning balance retained earnings + Net profit - Dividends on preferred stock - Dividends on common stock = Ending balance retained earnings

Statement of Cash Flows

Cash flows from operations + Cash flows from investments + Cash flows from financing - Net increase (or decrease) in cash

Activity Ratios

Used by potential investors, current investors, and management to measure the firm's efficiency in generating sales with its assets.

$$\text{Inventory turnover} = \frac{\text{Cost of goods sold}}{\text{Average inventory}}$$

$$\text{Collection period} = \frac{\text{Accounts receivable}}{\text{Credit sales per day}}$$

$$\text{Fixed asset turnover} = \frac{\text{Sales}}{\text{Net fixed assets}}$$

$$\text{Total assets turnover} = \frac{\text{Sales}}{\text{Total assets}}$$

Leverage Ratios

The measure of a firm's degree of indebtedness and its ability to meet long-term obligations. Used by bankers, analysts, investors, and others interested in measuring the debt burden of a business.

$$\text{Debt ratio} = \frac{\text{Total liabilities}}{\text{Total assets}}$$

$$\text{Debt-to-equity ratio} = \frac{\text{Long-term debt}}{\text{Shareholders' equity or equity}}$$

$$\text{Times interest earned ratio} = \frac{\text{EBIT} - \text{Interest}}{\text{Interest}}$$

$$\text{Cash coverage ratio} = \frac{\text{EBIT} + \text{Depreciation}}{\text{Interest}}$$

$$\text{Fixed-charge coverage ratio} = \frac{\text{EBIT} + \text{Lease payments}}{\text{Interest} + \text{Lease payments}}$$

$$\text{Equity multiplier ratio} = \frac{\text{Total assets}}{\text{Total equity}}$$

Profitability Ratios

The measure of the returns on assets and equity. Used by financial analysts, investors, management, and other interested financial statement users.

$$\text{Gross profit margin} = \frac{\text{Gross profit}}{\text{Total assets}}$$

$$\text{Net profit margin} = \frac{\text{Net income}}{\text{Sales}}$$

$$\text{Return on assets (ROA)} = \frac{\text{Net income}}{\text{Total assets}}$$

$$\text{Return on equity (ROE)} = \frac{\text{Net income}}{\text{Equity}}$$

$$\text{Price/Earnings (P/E) ratio} = \frac{\text{Price per share of common stock}}{\text{Earnings per share}}$$

$$\text{Earnings per share (EPS)} = \frac{\text{Earnings available to common stockholders}}{\text{Number of shares of common stock outstanding}}$$

$$\text{Market-to-book ratio} = \frac{\text{Common stock price per share}}{\text{Book value of common stock per share}}$$

$$\text{DuPont System}$$

Originally used by the DuPont Corporation, these calculations allow users to see how operating efficiency (profit margin), asset use efficiency (asset turnover), and financial leverage (equity multiplier) impact return on equity.

ROE = Net profit margin × Total asset turnover × Equity multiplier

OR

ROE = ROA (1 + Debt-to-equity ratio)

Benchmarking

- Ratios should be compared to standards such as industry or peer averages.
- Avoid general rules of thumb since they don't apply to all industries.
- Compare current year ratios to prior year ratios (time series analysis) for positive or adverse trends.
- Compare current year ratios to those of competitors (if data is available) and then to the industry as a whole. This is called a cross-sectional analysis.

Money In Review Chapter 7 Foundations In Personal Finance

RJ Shavelson

Money In Review Chapter 7 Foundations In Personal Finance:

Introduction to Personal Finance John E. Grable, Lance Palmer, 2024-01-31 Every financial decision we make impacts our lives Introduction to Personal Finance Beginning Your Financial Journey 3rd Edition is designed to help students avoid early financial mistakes and provide the tools needed to secure a strong foundation for the future Using engaging visuals and a modular approach instructors can easily customize their course with topics that matter most to their students This course empowers students to define their personal values and make smart financial decisions that help them achieve their goals

Foundations of Finance Arthur J. Keown, 2003-04 Designed to provide students with a conceptual understanding of the financial decision making process rather than just introducing them to the tools and techniques of finance this book includes FinCoach a Windows based software to help learn how to solve practically any mathematical problem in Corporate Finance

Essentials of Personal Financial Planning Susan M. Tillery, Thomas N. Tillery, 2018-09-21 ESSENTIALS OF PERSONAL FINANCIAL PLANNING Essentials of Personal Financial Planning was written to challenge the status quo by promoting personal financial planning PFP as a profession not as a sales tool to gather assets under management or facilitate sales of insurance products The book takes a comprehensive and integrated approach to PFP for accounting students allowing them to view the profession through the lens of a CPA with integrity and objectivity This book systematically introduces the essentials of all the major PFP topics estate retirement investments insurance and tax as well as The PFP process concepts and regulatory environment Professional responsibilities of a CPA personal financial planner and the requirements of the Statement on Standards in PFP Services Time value of money concepts The book then builds on these foundational concepts showing their interconnectivity and professional opportunities to provide a deeper understanding of PFP and its application After reading this book students will be able to apply the knowledge and skills gained from this course to have an immediate and long term positive impact for themselves and for the clients they serve

Introduction to Personal Finance Kristen Carioti, 2024-03-18 Introduction to Personal Finance helps students understand their relationship with money while they learn the fundamentals of personal finance Regardless of their financial background or career aspirations students will walk away with a clear roadmap for setting and achieving their financial goals

Business Communication Activebook John V. Thill, Courtland L. Bovée, 2004 This interactive book will give you the tools you ll need to succeed in today s workplace by developing your essential communication skills Three easy to follow steps planning writing and completing business messages offer a practical strategy for writing and delivering business messages Abundant sample documents show how to apply the principles being discussed This is the only book that offers business communication experience in every chapter through real world on the job simulations featuring actual companies and real world business documents These simulations provide a unique opportunity for you to practice and sharpen your business communication problem solving skills Topics include understanding business communication the three step writing process letters memos e mail and other brief

communications reports and oral presentations and resumes and interviewing for employment An essential and useful tool for anyone interested in developing better business communication skills human resource personnel managers and office workers will find interactive book especially helpful Microeconomics Ronald M. Ayers,Robert A. Collinge,2003 **The Regulation of Financial Planning in Australia** Angelique Nadia Sweetman McInnes,2019-08-20 This book investigates the legitimacy of the current Australian Financial Services Licensee Authorised Representative AFSL AR licensing model as specified in the Commonwealth Corporations Act 2001 The book rectifies the deficiency in scholarly attention to this matter by developing a new conceptualised framework for the financial planning discipline It takes into account theories in agency legislation legitimacy and the independent individual regulatory regimes in other professions thereafter integrating this framework with the financial planning theory to examine the legitimacy or what was found to be the illegitimacy of licensing advisers via multiple third party conflicted commercially oriented licensees This book makes a very useful reference to understanding financial planning licencing model in Australia **Macroeconomics ActiveBook Enhanced** Ronald M. Ayers,Robert A. Collinge,2004-06 This easy to read accessible macro first principles book engages readers with familiar real world examples and applications that bring economics to life This book discusses the macro economy aggregate supply and aggregate demand incentives for productivity money and monetary policy microeconomic foundations output markets input markets market failure and government action and the global economy For financial planners and analysts making personal decisions and evaluating policy decisions *ActiveBook, Management Information Systems* Kenneth C. Laudon,Jane Price Laudon,2003-08 **Personal Finance** Bernard J. Winger,Ralph R. Frasca,1999 For courses in Personal Finance Designed to help students plan for a successful financial future this comprehensive user friendly treatment of financial planning guides students through the complexities of today s financial world the authors use an applied approach to personal finance by walking through a decision making approach **Black Enterprise** ,1984-10 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance **Personal Finance** Jack R. Kapoor,Les R. Dlabay,Robert James Hughes,1996 Financial planning for life from career strategies and consumer credit to investments and taxes to retirement and estate planning this handbook covers everything for making those all important decisions **Review Copy** Arthur J. Keown,2002-10-15 **Banking Regulation in Israel** Ruth Plato-Shinar,2016-09-15 In the aftermath of the 2008 global financial crisis many governments are seeking ways to improve their banking regulation systems in the interests of both economic health and consumer protection Among the globally competitive countries that withstood the crisis with no significant disruption Israel stands out suggesting that other countries might benefit from an in depth analysis of its banking system This is the first book in English to provide such an analysis emphasizing the crucial balance between prudential regulation and conduct of business regulation which in Israel are both regulated by the same

agency unlike the Twin Peaks model that prevails in other market based economies With recommendations that are highly applicable to many countries the book examines a broad range of issues that are of current concern to the banking community worldwide Among these issues are the following the architecture of financial regulation nationalization and privatization of banks conflicts of interest in the banking system resulting from universal banking problems of concentration and lack of competitiveness in the banking system the growing power of institutional investors and their entry into traditional banking activities mechanisms for recovery and resolution in the event of a bank failure new models of banking regulation such as self regulation and contractual regulation and bank consumer protection complaint handling and redress Even though the book focuses on Israeli banking regulation its detailed attention to the development of a suitable supervisory model is of immeasurable international value for regulators lawyers bankers academics and business people who are in any way connected to the banking world particularly following the 2008 crisis and its devastating effects It is sure to be of service as many jurisdictions continue to search for optimal tools designed to prevent another such crisis

Book Review Digest,1923 **Government Finance Review** ,1988 **Economic Problems of Modern Society** John Nelson Andrews,Rudolf Karl Michels,1937 *The Reunion Planner* Linda Johnson Hoffman,Neal Barnett,1998-09 This second edition of the popular school planning guide is expanded to include sections on family and military reunions With comprehensive step by step instructions THE REUNION PLANNER is still the bible for planning a successful reunion Planners will save time and have money left over for the next reunion **Black Enterprise** ,1984-10 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance **Report** Russell Sage Foundation. Library,1929
