The Ciceronian Tradition in Political Theory Daniel J. Kapust, Gary Remer, 2021-01-26 Cicero is one of the most influential thinkers in the history of Western political thought and interest in his work has been undergoing a renaissance in recent years. The Ciceronian Tradition in Political Theory focuses entirely on Cicero's influence and reception in the realm of political thought. Individual chapters examine the ways thinkers throughout history, specifically Augustine, John of Salisbury, Thomas More, Machiavelli, Montaigne, Hobbes, Locke, Adam Smith, and Edmund Burke, have engaged with and been influenced by Cicero. A final chapter surveys the impact of Cicero's ideas on political thought in the second half of the twentieth century. By tracing the long reception of these ideas, the collection demonstrates not only Cicero's importance to both medieval and modern political theorists but also the comprehensive breadth and applicability of his philosophy. **Les Essais - Livre I**

**Illustrated** Michel de Montaigne, 2020-11-23 The Essays of Michel de Montaigne are contained in three books and 107 chapters of varying length. They were originally written in Middle French and were originally published in the Kingdom of France. Montaigne's stated design in writing, publishing, and revising the Essays over the period from approximately 1570 to 1592 was to record some traits of my character and of my humours. The Essays were first published in 1580 and cover a wide range of topics. **Pre-histories and Afterlives** Anna Holland, Richard Scholar, 2009 If the past is indeed a foreign country, then how can we make sense of its richness and difference without approaching it on our terms alone? Pre-histories and afterlives: critical methods that have emerged in recent work by Terence Cave offer new ways of shaping the stories we tell of the past and the analyses we offer. In this volume, distinguished contributors engage in a dialogue with these two new critical methods, exploring their uses in a range of contexts, disciplines, languages, and periods ranging from medieval mysticism through Montaigne and Diderot to the present day. Cicero and Modern Law Richard O. Brooks, 2017-07-05 Cicero and Modern Law contains the best modern writings on Cicero's major law-related works such as the Republic, On Law, On Oratory, along with a comprehensive bibliography of writings on Cicero's legal works. These works are organized to reveal the influence of Cicero's writings upon the history of legal thought, including St. Thomas, the Renaissance, Montesquieu, and the U.S. Founding Fathers. Finally, the articles include discussions of Cicero's influence upon central themes in modern legal thought, including legal skepticism, republicanism, mixed government, private property, natural law, conservatism, and rhetoric. The editor offers an extensive introduction placing these articles in the context of an overall view of Cicero's contribution to modern legal thinking. **The Enigma of Rabelais**

Contributors offer a chronological examination of the concept of the work of mourning in specific literary and

historical contexts beginning with an exploration of the medieval York Cycle of plays and sixteenth century French women's lyric and continuing through the Renaissance with considerations of Shakespeare the nineteenth century and into the twentieth century Foreword by Jonathan Hart     The country wife. The plain dealer. Letters. Epistles in verse William Wycherley, 1924     *Staging Doubt* Leonie Pawlita, 2019-09-02 This volume considers the influential revival of ancient philosophical skepticism in the 16th and early 17th centuries and investigates from a comparative perspective its reception in early modern English Spanish and French drama dedicating detailed readings to plays by Shakespeare Calderón Lope de Vega Rotrou Desfontaines and Cervantes While all the plays employ similar dramatic devices for putting skepticism on stage the study explores how these dramas however give different answers to the challenges posed by skepticism in relation to their respective historico cultural and ideological contexts     Mary Shelley's Literary Lives and Other Writings Nora Crook, 2022-07-30 This collection covers the lyrical poetry of Mary Shelley as well as her writings for Lardner's Cabinet Cyclopaedia of Biography and some other materials only recently attributed to her     *Far Afield* Vincent Debaene, 2014-04-04 Anthropology has long had a vexed relationship with literature and nowhere has this been more acutely felt than in France where most ethnographers upon returning from the field write not one book but two a scientific monograph and a literary account In *Far Afield* brought to English language readers here for the first time Vincent Debaene puzzles out this phenomenon tracing the contours of anthropology and literature's mutual fascination and the ground upon which they meet in the works of thinkers from Marcel Mauss and Georges Bataille to Claude Lévi Strauss and Roland Barthes The relationship between anthropology and literature in France is one of careful curiosity Literary writers are wary about anthropologists' scientific austerity but intrigued by the objects they collect and the issues they raise while anthropologists claim to be scientists but at the same time are deeply concerned with writing and representational practices Debaene elucidates the richness that this curiosity fosters and the diverse range of writings it has produced from Proustian memoirs to proto surrealist diaries In the end he offers a fascinating intellectual history one that is itself located precisely where science and literature meet     *An Early Self* Susanne Zepp, 2014-11-19 What role has Jewish intellectual culture played in the development of modern Romance literature Susanne Zepp seeks to answer this question through an examination of five influential early modern texts written between 1499 and 1627 Fernando de Rojas's *La Celestina* Leone Ebreo's *Dialoghi d'amore* the anonymous tale *Lazarillo de Tormes* the first picaresque novel Montaigne's *Essais* and the poetical renditions of the Bible by João Pinto Delgado Forced to straddle two cultures and religions these Iberian conversos Jews who converted to Catholicism prefigured the subjectivity which would come to characterize modernity As New Christians in an intolerant world these thinkers worked within the tensions of their historical context to question norms and dogmas In the past scholars have focused on the Jewish origins of such major figures in literature and philosophy Through close readings of these texts Zepp moves the debate away from the narrow question of the authors' origins to focus on the innovative ways these authors

subverted and transcended traditional genres She interprets the changes that took place in various literary genres and works of the period within the broader historical context of the sixteenth and seventeenth centuries demonstrating the extent to which the development of early modern subjective consciousness and its expression in literary works can be explained in part as a universalization of originally Jewish experiences
