Color

Solutions

Up to 50 ppm

7-inch  
touch screen

Combining the capabilities and durability of a workgroup MFP with the ease of use of a personal output device, the CX725 Series features enterprise-level security and integration into Lexmark's smart MFP ecosystem, all in a simple, intuitive design.

### Fast and quick printing

Printing up to 50 pages per minute in black or color, and scanning at up to 60 images per minute, the Lexmark CX725 Series is the fastest in its class\*.

Speed is important for high-volume printing, but most jobs are short—less than three pages.

Fortunately, the CX725 Series has a time to first black page as low as 5 seconds, and 5.5 for color. The CX725 Series often prints short jobs before a user can even get up from their chair, and minimizes waiting time for users who initiate printing from the touch screen.

### Processing power

Printing graphics-intensive color files can be a challenge for any MFP. However, with the most powerful print controller in its class\* (including a 1.2 GHz quad-core processor, up to 4 GB of memory and hard disk), the CX725 Series can easily power through complex documents.

### Reliable, flexible media handling

Paper misfeeds and jams are wasteful, annoying to deal with and time-consuming to resolve. The CX725 Series is engineered to make media loading and feeding easier and more reliable than ever.

**Input flexibility:** With maximum input capacity of up to 2300 pages, the CX725 Series gives you plenty of printing without time-consuming paper loading. And easily adjustable universal input trays let you load envelopes or media as small as A6 (4.1 x 5.8 inches) in any tray without worrying about misfeeds. The 100-sheet multipurpose feed input is easy to access and convenient for special media needs, including 52-inch banner support.

**Input reliability:** The Lexmark CX725 Series is built with the same level of robust media handling that Lexmark's highest-performance monochrome printers are known for. The series' paper trays are virtually jam-proof, built with exceptional durability and mounted on steel rails—all working together for added reliability, ease of use and long life, even in challenging environments.

**ADF scanning:** Load up the automatic document feeder with up to 50 sheets of paper, and count on perfectly straight scans resulting from the CX725 Series' integrated deskew feature.

### Superb print quality

The CX725 Series offers print technology usually found only in higher-priced color devices. It creates sharp, consistent and smooth images for professional-looking print jobs.

**Ultra-sharp quality:** The CX725 Series provides Lexmark's ultra-sharp 4800 Color Quality (4800 CQ) at maximum print speed. And built-in font outlining automatically smooths character edges and prevents broken characters for outstanding text clarity in any language.

**Spot-on color:** The CX725 Series provides both PANTONE® calibration and embedded color sample pages to help you nail perfect color at the design stage. Lexmark Color Replacement technology combines spot color replacement and RGB replacement for precision matching of critical colors such as those found in corporate logos. It's color so accurate, you can do everything in-house.

This is a Class A device according to international electromagnetic emissions standards (i.e., FCC Rules, EN 55022/EN 55022, etc.). Class A products are intended for use in non-residential/non-domestic environments. Use of a Class A product in residential/domestic environments may cause interference to radio communications and require corrective measures.

\*Class is defined as A4 color laser MFPs priced between \$2,000 and \$2,999 as of November 2013. Comparison based on manufacturers' web price and published speed specifications as reported by Buyers Laboratory (BLI), as of November 2013.
