La fotografía en el contexto del cambio Héctor Guillermo Alfaro López, Graciela Leticia Raya Alonso, 2019-11-12 La cotidiana sobreproducción social de fotografías nos remite a la necesidad de que una parte de imágenes de la totalidad que se pierde en la espuma de los días se preserve Preservación que implícitamente sea un reducto de recuperación de la memoria que una parte de información fotográfica pueda ser conservada por su relevancia social Lo que nos conduce directamente a las ciencias documentales entre las que tiene lugar la bibliotecología cuyo sentido y objetivo es precisamente la preservación organización y difusión de la información registrada entre la que por supuesto se encuentra la información visual Ahora bien esto que de primera instancia parece obvio como es el hecho de que la información visual en cualquiera de sus soportes de imágenes son objetos de suyo connaturales al que hacer de tales ciencias presenta algunos problemas Por ejemplo en el caso específico de la bibliotecología que por ancestral tradición ha hecho de la información bibliográfica su objeto central de trabajo se enfrenta en la actualidad a diversas cambiantes y distintivas expresiones informativas como es el caso de la información visual y más en particular a la información fotográfica por lo que está siendo llevada a reconstruir su visión de la información así como de los parámetros de organización de la misma

La bibliotecología al ser una ciencia por su propia condición estructuradora del orden ha buscado desde el principio ofrecer un marco y procedimientos técnicos para organizar la información fotográfica en algunos casos de manera aproximada en otros insatisfactoriamente pero la tarea continúa como queda de manifiesto en esta obra cuyo título para esta edición es ya de por sí ilustrativo del momento en que este soporte informativo se encuentra La fotografía en el contexto del cambio retos y perspectivas *Tratado de biblioteconomía* Javier Lasso de la Vega y Jiménez-Placer,1956 **Manual para la clasificación y catalogación decimal de los archivos del ramo** Mexico.
