Koenigsberger, 1980 *Manual Of Tropical Housing & Building* Otto H. Koenigsberger, 1984 **Third World Modernism** Duanfang Lu, 2010-11-02 This set of essays challenge interpretations of the development of modernist architecture in Third World countries during the Cold War The topics look at modernism's part in the transnational development of building technologies and the construction of national and cultural identity **Handbook of Art and Global Migration** Burcu Dogramaci, Birgit Mersmann, 2019-07-08 Wie lässt sich eine Kunstgeschichte denken die prozessuale performative und transkulturelle Wanderungsbewegungen ins Zentrum ihrer theoretischen und methodischen Analysen rückt Mit Beiträgen international ausgewiesener Experten gibt das Handbuch erstmals Antworten darauf welche Konsequenzen das Zusammenwirken von Migration und Globalisierung für die kunstwissenschaftliche Forschung die kuratorische Praxis sowie die künstlerische Produktion und Theorie hat Ziel der vielstimmigen Anthologie ist es einen interdisziplinären Diskurs zum migratory turn in der Kunstgeschichte zu eröffnen Modernism's Magic Hat Ijlal Muzaffar, 2024-07-16 Examines the role of architecture in the history of global development and decolonization *Low Carbon Cities* Steffen Lehmann, 2014-09-15 *Low Carbon Cities* is a book for practitioners students and scholars in architecture urban planning and design It features essays on ecologically sustainable cities by leading exponents of urban sustainability case studies of the new directions low carbon cities might take and investigations of how we can mitigate urban heat stress in our cities microclimates The book explores the underlying dimensions of how existing cities can be transformed into low carbon urban systems and describes the design of low carbon cities in theory and practice It considers the connections between low carbon cities and sustainable design social and individual values public space housing affordability public transport and urban microclimates Given the rapid urbanisation underway globally and the need for all our cities to operate more sustainably we need to think about how spatial planning and design can help transform urban systems to create low carbon cities and this book provides key insights **Casablanca Chandigarh** Tom Avermaete, Maristella Casciato, Mirko Zardini, 2014 This book documents two complementary urban realities that have played a fundamental role in the imagination definition and redefinition of the twentieth century modern city Shifting away from an understanding of architecture as the construction of monumental masterpieces the texts collected here assemble the

narratives behind the public spaces housing and social facilities in these two cities where modern plans have proven unexpectedly resilient and adaptable over time This perspective is reinforced through visual contributions by Yto Barrada and Takashi Homma two photographers especially invested in capturing everyday urban life In a world marked by decolonization and Cold War politics Casablanca and Chandigarh appear simultaneously as exponents of and countercurrents to modernization and its development perspectives The book s three chapters set the context for reading Casablanca and Chandigarh as the results of nuanced dynamic processes of international exchange driven by the engagement and expertise of a new class of design professionals As a dossier of actors alignments and agendas the book contributes to an alternative historiography of post war urbanism and to recent reflections on the impact of transnational practice P 4 of cover
