We do not and do not have to like everybody The tastes and interests of one person might match with ours while the tastes and interests of another person may be at complete loggerheads with ours So when it comes to dating it is very much the same story But over here there are some strings attached Unlike in a classroom contact most people go on dates with a more impressive purpose and that is to find life mate There are a hundred and one things that should match before two people decide to spend the rest of their lives with each other Many people are of the opinion that they do not need any help with dating They may be right because nobody knows a person s tastes and likes better than the person himself or herself
