Catalogue of Printed Books British Museum, 1892 **The Riviera, Exposed** Stephen L. Harp, 2022-05-15 A sweeping social and environmental history The Riviera Exposed illuminates the profound changes to the physical space that we know as the quintessential European tourist destination Stephen L Harp uncovers the behind the scenes impact of tourism following World War II both on the environment and on the people living and working on the Riviera particularly North African laborers who not only did much of the literal rebuilding of the Riviera but also suffered in that process Outside of Paris the Riviera has been the most visited region in France depending almost exclusively on tourism as its economic lifeline Until recently we knew a great deal about the tourists but much less about the social and environmental impacts of their activities or about the life stories of the North African workers upon whom the Riviera s prosperity rests The technologies embedded in roads airports hotels water lines sewers beaches and marinas all required human intervention and travelers were encouraged to disregard this intervention Harp s sharp analysis explores the impacts of massive construction and public works projects revealing the invisible infrastructure of tourism its environmental effects and the immigrants who built the Riviera The Riviera Exposed unearths a gritty history one of human labor and ecological degradation that forms the true foundation of the glamorous Riviera of tourist mythology British Museum Catalogue of printed Books ,1881

Philosophic Pride Christopher Brooke, 2022-11-29 Philosophic Pride is the first full scale look at the essential place of Stoicism in the foundations of modern political thought Spanning the period from Justus Lipsius s Politics in 1589 to Jean Jacques Rousseau s Emile in 1762 and concentrating on arguments originating from England France and the Netherlands the book considers how political writers of the period engaged with the ideas of the Roman and Greek Stoics that they found in works by Cicero Seneca Epictetus and Marcus Aurelius Christopher Brooke examines key texts in their historical context paying special attention to the history of classical scholarship and the historiography of philosophy Brooke delves into the persisting tension between Stoicism and the tradition of Augustinian anti Stoic criticism which held Stoicism to be a

philosophy for the proud who denied their fallen condition Concentrating on arguments in moral psychology surrounding the foundations of human sociability and self love Philosophic Pride details how the engagement with Roman Stoicism shaped early modern political philosophy and offers significant new interpretations of Lipsius and Rousseau together with fresh perspectives on the political thought of Hugo Grotius and Thomas Hobbes Philosophic Pride shows how the legacy of the Stoics played a vital role in European intellectual life in the early modern era **Journal officiel de la République Française** Frankreich,1885
