year career leadership expert Kathleen Schafer has continually broken new ground in how we understand leadership and apply it in our lives From students to elected officials her work has benefited a wide range of people seeking fulfillment in their lives along with a broad impact on the world This book encapsulates her innovative approach to leadership development in twenty eight daily lessons Within a month you'll identify your greatest assets potential and purpose and understand how to put them to work so you can create the career and life you desire becoming the change you wish to see in the world

*Everyday Leader* Frank Boudreau, 2019-08-13 This book is a collection of leadership thoughts and principles that I know you will connect with in some way But it wasn't intended to be read cover to cover in one sitting I recommend you consider it like a devotional that you pick up and read a couple of times a week For things like this I generally set a repeating calendar notice to remind me to spend a few minutes getting a bit of a leadership nugget or shot in the arm so to speak You could pick it up daily and read the book in a little over three months Or you could schedule a couple days a week and spread it out over a year So that each nugget or morsel has some time to really sink in as you apply the principle within Whatever your style is I know you will get some value out of this book and I trust it will have a positive impact on your ability to lead your team I have been a student of leadership for a very long time I first read John Maxwell's book *The 21 Irrefutable Laws of Leadership* in 1998 At the time I was a 30 year old manager just a couple of years into my first leadership role That book shifted gears for me and certainly had an impact on my ability to lead Since then I've read so many good books on leadership and other related topics and benefitted from them I've learned many approaches habits techniques etc on how to lead effectively But then I had to learn how to apply those things to my circumstances and situations So for 2 decades I continued to read and apply learn and apply hear and apply and I continue to do so And as I have learned I have always made it a priority to share what I learned with those around me First as a peer then as a boss then as a certified life coach and more recently as a certified leadership coach and teacher With every opportunity I pour into anyone who showed a desire to learn and grow I share my personal experiences of how I applied the principles that I had learned and would often recommend some of the books that helped me But I never found the book that I was looking for The book that would help people connect the widely written about principles to their everyday situations It was the day to day application that only comes from experience and is best shared by stories and examples For that reason I wrote this book It is a collection of many of the stories and illustrations I have shared over the years to help those hungry to learn and grow in their ability to lead If you happen to be one of the many who read my blogs or social media posts over the years I want to thank you for listening and I pray that it encouraged you in some way to continue to grow and give your best to those who you were leading If this is your first time reading my work I pray that it will impact you in the same way
