Leader Evolution From Technical Expertise To Strategic Leadership:

Leader Evolution Alan Patterson, 2014-10-14 Most individuals who move into leadership positions experience the modern day version of trial by ordeal It's sink or swim To reduce the learning curve and create a more effective process this book describes a road map for leadership development a series of four stages that expand personal competence as well as create a broader impact on the organization or business Each stage requires unique changes in thinking perspective taking and behavior both those needed to acquire as well as those needed to jettison The book is a pragmatic approach for self motivated individuals to take control of their professional development by giving them the concepts tools techniques and assignments to develop their leadership effectiveness where it counts the most on the job While highly relevant to new and existing managers the book is ideally suited for technical professionals and leaders in technical organizations looking to develop critical leadership skills distinct from technical expertise The concepts and principles are directed toward the individual for on the job application however this also serves as an organizational and leadership development resource for Executive MBA programs as well as a blueprint for in house leadership development programs Leader Evolution, 2018

Strategic Leadership Victor C.X. Wang, 2018-02-01 Strategic leadership is broadly defined as utilizing particular approaches in the management of employees The main objective is productivity It provides the vision and direction for the long term growth and success of an organization It requires objectivity and potential to look at the broader picture It is leaders responsibility to incorporate aspects of both the analytical and human dimensions to effectively drive the organizations forward As an academic subject it is taught in both education and business Leaders and managers have turned to strategic leadership to inspire and guide their visions and to formulate the directions so essential for the long term growth and success of an organization or a country Leaders need the skills and tools for strategy formulation and implementation in order to deal with change in our society Managing change and ambiguity requires strategic leaders who not only provide a sense of direction but who can also build ownership and alignment within their workgroups to implement change The goal of strategic leadership is to drive innovation and maximize team performance to enhance organizations long term growth and success in today's complex world of fastpaced dramatic change Research on strategic leadership has been going on for decades Textbooks on this subject are readily available If we look deeper we realize the vast majority of these books were written from a practitioner's perspective In other words these books were not based on empirical research Naturally these existing books have failed to better serve the needs of today's graduate students who should be equipped with empirical research on such an academic subject This book will investigate emergent administrative techniques and business practices being used within educational establishments and corporate worlds It will highlight empirical research and best practices within strategic leadership Data Leadership in the Age of AI: Building Intelligent, Scalable Analytics Systems 2025

Strategic Warfare in Cyberspace Gregory J. Rattray, 2001 A comprehensive analysis of strategic information warfare waged via digital means as a distinct concern for the United States and its allies In the information age information systems may serve as both weapons and targets Although the media has paid a good deal of attention to information warfare most treatments so far are overly broad and without analytical foundations In this book Gregory Rattray offers a comprehensive analysis of strategic information warfare waged via digital means as a distinct concern for the United States and its allies Rattray begins by analyzing salient features of information infrastructures and distinguishing strategic information warfare from other types of information based competition such as financial crime and economic espionage He then establishes a conceptual framework for the successful conduct of strategic warfare in general and of strategic information warfare in particular Taking a historical perspective he examines U.S. efforts to develop air bombardment capabilities in the period between World Wars I and II and compares them to U.S. efforts in the 1990s to develop the capability to conduct strategic information warfare He concludes with recommendations for strengthening U.S. strategic information warfare defenses
