John Overdurf Deep Trance Identification:

Deep Trance Identification Shawn Carson, Jess Marion, John Overdurf, 2014-08-13 This book by Carson Marion and Overdurf is an excellent exploration of the extraordinary trance process of deep trance identification. It is thorough, practical, and clear, thereby providing an excellent guide for those seeking far-reaching transformational change. I highly recommend it. Stephen Gilligan, Ph.D. Generative Trance. Deep Trance Identification (DTI) has captivated the imagination of hypnotists since the mid-20th century. DTI has been used by countless modelers to master hypnosis skills, musical and acting abilities, emotional transformation, and so much more. Historically, very little is written about DTI despite it being at the heart of all unconscious learning and transformation. For the first time, DTI is presented here in a practical and easily understandable way. Shawn Carson, Jess Marion, and John Overdurf have dedicated years to studying and using DTI, and in this book, they share their discoveries. They present the art and neuroscience of this hypnotic phenomenon and explain how you can use this modality to change your life and the lives of your clients. Deep Trance Identification presents an elegant model for using DTI and outlines comprehensive techniques that make the DTI experience deeply transformative. **Deep Trance**

Identification Shawn Carson, Jess Marion, John Overdurf, 2015-08-11 The Deep Trance Identification Companion is designed to help you streamline your DTI modeling project. The Companion consists of detailed worksheets and step-by-step processes to assist you in modeling excellence. This book represents the core principles of the DTI process as laid out by Carson, Marion, and Overdurf in Deep Trance Identification. It is recommended that you begin with that book before using the manual.

Jung's Red Book for Our Time Murray Stein, Thomas Arzt, 2021-09-25 The spiritual malaise regnant in today's disenchanted world presents a picture of a polar night of icy darkness, as Max Weber wrote already a century ago. This collective dark night of the soul is driven by climate change, related disasters, rapid technological innovations, and opaque geopolitical realignments. In the wake of what policy analysts refer to as Westlessness, the postmodern age is characterized by incessant distractions, urgent calls to responsibility, and inhumanly short deadlines, which result in a general state of exhaustion and burnout. The hovering sense of living in a time frame that is post-histoire induces states of confusion on a personal level as well as in the realm of politics. Totally missing is a grand narrative to guide humanity's vision in the midst of a world crisis. Thinkers, scholars, and Jungian analysts are increasingly looking to C.G. Jung's monumental oeuvre, The Red Book, as a source for guidance to re-enchant the world and to find a new and deeper understanding of the homo religiosus. The essays in this series on Jung's Red Book for Our Time, Searching for Soul under Postmodern Conditions, circle around this objective and offer countless points of entry into this inspiring work. *Coaching mit Magie* Klaus-Peter Pfeiffer, 2016-01-22 Was haben Coaching und Bienenzauberei gemeinsam?
