Kodak Zi8 User Manual:

Challenging Status Quo Retrenchment Curry Malott, Brad J. Porfilio, Tricia M. Kress, 2013-03-01 This year 2012 marks ten years of No Child Left Behind and the U S federal government's official designation of what qualifies as scientifically based research SBR in education Combined these two policies have resulted in a narrowing of education via standardization and high stakes testing Au 2007 as well as the curtailment of forms of inquiry that are deemed legitimate for examining education Wright 2006 While there has been much debate about the benefits and limitations of the NCLB legislation e g Au 2010 and SBR e g Eisenhart Towne 2003 critical researchers have held strong to their position The reductionistic narrowing of education curricula and educational research cannot solve the present and historical inequities in society and education Shields 2012 Contrarily reductionism via standardization and or methodological prescription exacerbates the challenges we face because it effectively erases the epistemological ontological and axiological diversity necessary for disrupting hegemonic social structures that lie at the root of human suffering Kincheloe 2004 Not only has NCLB proven incapable of overcoming inequalities but there seems to be sufficient evidence to suggest it was never really intended to eliminate poverty and human suffering That is it seems NCLB despite its lofty title and public discourse is actually designed to advance the agenda of handing public education over to for profit corporations to manage and privatize thereby intensifying the capitalist class war on those who rely on a wage to survive Malott 2010 In the present ethos reductionism upholds and retrenches the status quo i e the basic structures of power and it puts at risk education and educational research as means of working toward social justice Biesta 2007 Because social justice can be interpreted in multiple ways we might note that we understand critical social justice as oriented toward action and social change Thus critical education and research may have potential to contribute to a number of social justice imperatives such as redistributing land from the neo colonizing settler state to Indigenous peoples halting exploitative labor relations and hazardous working conditions for wage earners and engaging in reparations with formerly enslaved communities
